Finally! Board member orientation truly simplified. Serving on a nonprofit board can be an incredibly rewarding experience for the properly prepared board member. This book is for the generous and busy people who agree to give of their time and talents by serving on nonprofit boards. Nonprofit boards often fail to do a good job of board member orientation for a variety of reasons. It takes a significant amount of time and effort to plan and conduct quality board member orientation programs, and every time a new board member arrives, it's time to do it again! Because of the challenges associated with providing quality board member orientation, many nonprofit organizations do not do it at all, leaving their board members to wing it. This book provides help and support to the truly great men and women serving on nonprofit boards whose service makes a positive difference in the lives of countless people every day. This book is a concise and appropriately comprehensive guide to nonprofit board service designed especially for new board members. It is a quick read, (about one hour), yet it addresses with accuracy the most significant elements of board service, such as mission, responsibility, duty, risk, liability, and board meeting dynamics. Hooey Alerts! Watch for Hooey Alerts! where the author identifies and dispels common myths and legends about nonprofit board service. There are many sources of false or misleading information about the nonprofit board service environment. A perfect example is the often vaguely-worded and intimidating assertion or implication that the Sarbanes-Oxley Act passed by Congress in 2002 applies to nonprofit organizations in a manner similar to how it applies to publicly-traded companies. (It does not.) Reviews "This book is the perfect guide for every nonprofit board member! Concise, highly informative, and loaded with nuggets of wisdom, it's a must read that will take board members to the next level of successful board governance." -- J. Todd Chasteen, General Counsel, Samaritan's Purse "Mike Batts has put his quarter century of advising and serving on nonprofit boards to good use in this accurate and easy-to-read book. In addition to describing major principles of nonprofit law and governance, the book provides helpful questions to guide board members in understanding the practical applications of the concepts discussed. While geared primarily toward helping new board members get up to speed quickly, it should also help veteran board members discharge their stewardship roles wisely and efficiently." -- Chuck Hartman, Associate Professor of Business Law and Accounting, Cedarville University "This book, Board Member Orientation, is exactly what a busy volunteer board member needs. The board member's duties are presented in a clear and concise manner from the perspective of someone who has been around many boards. With a focus on those issues that are most common and/or most important, it is perfect for board member orientation and for quick reference reminders for the experienced board member." -- Doug Starcher, Partner, Broad & Cassel "This book provides clear, no-nonsense guidance on the basic issues for new nonprofit board members. Using this book for board member orientation will ensure your organization has communicated fundamental governance issues and will assist the board in determining risk management strategies." -- Dan Busby, President, ECFA ***** The Simple Board Member Orientation Process Using This Book: 1. Your board members read Chapters 1-9 of the book, which will provide them with insights regarding the key elements of nonprofit board service. 2. You provide the board members with copies of the documents described in Chapter 10 related to your organization. 3. You meet with your board members to discuss the unique attributes of your organization following the discussion questions provided in Chapter 10. Done!

Dr. Lyon shows that the Bible promises healing by Jesus if we fulfill the requirements of believing His promises. He points out the Divine healing as the Bible teaches can be instantaneous, gradual, by the use of means, and even death is a form of healing. He also discusses old age and our service for the Lord. The booklet is not only a presentation for Biblical healing, but a manual showing how we can experience healing and be an instrument for divine healing.

An insidious parasite is working its way through the suburbs of Washington, D.C. NITS follows the trail of a virulent outbreak of head lice as it wreaks havoc on the lives of a social climbing mother of a scholarship student, a buff young Latin teacher and a controlling do-gooder who is so consumed with exterminating the pest, people start calling her the "Lice Nazi." A social satire with bite, NITS explores the themes of class, ambition, and the unavoidable interconnectedness of modern life.

Children are naturally drawn to animals. Sooner or later your child may ask for a dog of their own. This book will help your child learn about the care and training that their Wirehaired Pointing Griffon needs, all the while they are learning with the fun activities in the book. They'll have fun with the fill in the missing vowels, word find puzzles, mazes, charts, making their own note cards & bookmarks, plus questions and answers. The book is a fun read as told from the Wirehaired Pointing Griffon's point of view.

IF YOU KISS A FROG, HE JUST MIGHT TURN INTO A PRINCE. IF YOU KISS A TOAD, HE'LL JUST PEE ON YOUR HAND. This is the book emotionally abusive partners do NOT want you to read. It sounds so simple -- get out of a harsh relationship, remove the shrapnel, and move on. But some guys don't make that possible. Sometimes you get out of the relationship, like with a narcissist, but you can't recover because he doesn't give you a chance. He won't leave you alone long enough. Alexandra Nouri knows that personality-disordered people, psychopaths, sociopaths, and their ilk, in fact make leaving as difficult as possible. Getting out of a relationship with a narcissist is excruciating, but staying out of one takes the resolve of an Army. A narcissist is constantly pushing and pulling, devaluing you and everything about you, sucking you back in and making you believe the two of you have a chance, and basically pushing some very tender buttons, all in a big fat confusing and chaotic mess. When a relationship is ending, feeling hurt and angry is normal, but if you feel like you're losing your mind, like your very survival is being threatened, then this book is written with you in mind. Those feelings mean he's messing with your head. And that's not cool. "Life," Aunt Alex says, "is uncertain, and mysterious. However, when it comes to life, you can count on three things. The sun will always rise in the East. If you hold up a cast iron frying pan and then let it go, it will not hover in the air and make a tweety sound. And if you go back to

a guy with a personality disorder, he WILL hurt you again." Their breakups are all the same. Idealize, devalue, annihilate, string along, devalue, string along, annihilate, string along. The toad modus operandi gets very old and very boring, very fast. When he manipulates, deceives, and encroaches on your boundaries, that's not a power struggle. Or an argument. That's abuse. Aunt Alex's Army is the answer. The Army will brief you, train you, and give you your marching orders to a toad-free life. This is Aunt Alex's Army Manual, and here she musters the troops to lift up and empower the reader. You'll learn: * Who Toads Are * Who Kisses Them * Why Moving Forward Takes An Army * The Three Toad Truths * The Five Toad Motivators for Getting Into Relationships * What Toadspeak is, and Why It Drives People Crazy * What To Do About It * Your Psyche's Information Highway, and How to Pave New Roads to Health * The Five Army Maneuvers In Reality * Why It's Mandatory to Be All You Can Be There's nothing wrong with believing in epic love. There's just something wrong with expecting to get it from a narcissist. "You lost him because you're not good enough" is the #1 most toxic, worthless lie an ex sometimes hears from the toad, from other people, and even the gremlins inside her head. These are lies a toad wants you to believe -- that the reason you two aren't together right now in utter bliss is because you're not good enough. Not attractive enough, not interesting enough, not smart, happy, compatible, sexy, open, fun enough, doesn't matter: He wants you to believe the reason you two aren't working out is because of a serious shortcoming in YOU. Usually this is very vague, with hints and shrugging dissatisfaction. And he's really hoping this vagueness takes the focus off of the real causes of all the destruction: His absence of empathy. In the book Toads, and the Women Who Kiss Them Aunt Alex's Army Manual, Alexandra Nouri gives legions of examples of their confusing, bizarre ways, and straightens them out for you. She supports you in your new quiet disregard for BS, and helps you rise above the chaos and neurosis of his weird behavior. She translates the Toadspeak. She teaches you how to remove the shrapnel of his abuse so your broken heart can heal. A portion of the proceeds goes to the Futures Without Violence Fund. During a chance night shift on the cops beat, newsroom assistant Madeleine Harrington stumbles on the corruption story of a lifetime – a plot that would reshape the entire city. She teams up with her dad, a downtrodden columnist at the paper, to unearth the mystery. The muckrakers find the plot goes deeper – and contains more skeletons among the city's powerbrokers – than they imagined.

Electricity can be easy to understand! A fruitful model of simple electric circuits is developed and applied in these pages. The approach is highly pictorial: electric potential (Volts) and electric current (Amps) are represented by simple diagrams. The student is expected to use these diagrams as the principal mode of analyzing circuits. When algebra and equations are introduced, the student already has an understanding of V, I, R and P from the diagrams. As in all of the Ross Lattner IntuitivScience series, diagrams are an important mode of expression. Parents and teachers, you get one half of the book! We provide solid pedagogical supports, recipes, and methods of presentation. The unit itself is further subdivided into four sections, approximating four weeks of 70-minute classes. 1. Static electricity and the electrical structure of matter 2. Characteristics of electric current, and development of a model of current, potential, resistance and power 3. Mathematical treatment of series and parallel circuits 4. Projects that are either an application of the model or an extensions of the model. At the end of sections 1 - 3 is a thorough quiz, in the same pictorial style. Because this unit involves fundamental forces and concepts, we recommend that it be placed first in the series of the four Ross Lattner Grade Nine Academic IntuitivScience books. In particular, this book should be placed before chemistry. This Army and Marine Corps multiservice publication serves as doctrinal reference for the employment of mortar squads, sections, and platoons. It contains guidance on tactics and techniques that mortar units use to execute their part of combat operations described in battalion-, squadron-, troop-, and company-level manuals. This publication also contains guidance on how a mortar unit's fires and displacement are best planned and employed to sustain a commander's intent for fire support. The target audience of this publication includes mortar squad, section, and platoon leaders, company and battalion commanders, battalion staff officers, and all others responsible for controlling and coordinating fire support during combined arms operations. Training developers also use this manual as a source document for combat critical tasks. Combat developers use this manual when refining and revising operational concepts for Infantry and reconnaissance mortar organizations. This publication serves as the primary reference for both resident and nonresident mortar tactical employment instruction.

Recognized and acclaimed as one of the most brilliant Sales Executives in the beauty industry, Thomas has condensed his many years of sales and business experience into this easy-to-read and insightful book. Unlike similar books in the industry that only discuss hair, Thomas focuses on key business practices that are necessary to shape the mindset and behaviors of those who desire to be successful professionals, behind the chair and beyond! Whether you are a stylist or an owner, beginner or pro, young or mature; this book is equivalent to an MBA crash course in salon etiquette, marketing, management, leadership, fostering client satisfaction, preparing for retirement, and more. Thomas' no-nonsense and tough love approach mixed with humor will propel your business from mediocre to extraordinary.

The International Space Station (ISS) is a great international, technological, and political achievement. It is the latest step in humankind's quest to explore and live in space. The research done on the ISS may advance our knowledge in various areas of science, enable us to improve life on this planet, and give us the experience and increased understanding that can eventually equip us to journey to other worlds. As a result of the Station's complexity, few understand its configuration, its design and

component systems, or the complex operations required in its construction and operation. This book provides high-level insight into the ISS. The ISS is in orbit today, operating with a crew of three. Its assembly will continue through 2010. As the ISS grows, its capabilities will increase, thus requiring a larger crew. Currently, 16 countries are involved in this venture. The sophisticated procedures required in the Station's construction and operation are presented in Amazing 3D Graphics generated by NASA 104 pages of spectacularly detailed color graphics the Space Station as you've never seen it before!

The HCM 2010 significantly enhances how engineers and planners assess the traffic and environmental effects of highway projects by: Providing an integrated multimodal approach to the analysis and evaluation of urban streets from the points of view of automobile drivers, transit passengers, bicyclists, and pedestrians; Addressing the proper application of microsimulation analysis and the evaluation of the results; Examining active traffic management in relation to demand and capacity; and Exploring specific tools and generalized service volume tables to assist planners in quickly sizing future facilities. The four-volume format provides information at several levels of detail, to help users more easily apply and understand the concepts, methodologies, and potential applications.

A planet plagued with tumult from outsiders and divided by its own religious dichotomy could face extinction if their faiths are not united and an unholy artifact is destroyed. Safiro, the God of Death, and Sanguina, the Goddess of Life, created two heroes (Vytametas) -- mirror twins separated at birth yet destined to meet in a place where the future of their world will be decided by their powers. The only people who know not the ultimate purpose of the legendary Vytametas are the young heroes themselves. While the teenage Vytametas learn of their world and of their mission, they will be turned against each other by the two faiths they are meant to save: the demented Safiric Brotherhood and the shady Sanguinic Sisterhood.

Buried in the bowels of one of the several intelligence agencies in the US government is an office of clandestine medical personnel. Their mission is to analyze the health and mental state of international persons of interest and report their findings to America's policymakers. The team is on call 24/7 to comment on and analyze any written observations, pictures or videos of such persons of interest that may come into the hands of the U.S. government. The goal is to provide timely information to policymakers and negotiators so that the United States of America may achieve maximum success in dealing with the people concerned. Usually this is done in the safe confines of the Agency walls, but sometimes the analysts are forced to place themselves in harms way. Through it all and despite the circumstances, their Code of Honor is to Do No Harm.

RISA-3D (Rapid Interactive Structural Analysis) is used for structural analysis and design. The tools in RISA-3D are primarily used in

structural engineering and they help users to design structural models using both parametric 3D modeling and 2D drafting elements. The RISA-3D model comprise of a physical representation of a structure. The structural modeling in RISA-3D can be used for structural designing and analysis application. The Exploring RISA-3D 14.0 book explains the concepts and principles of RISA-3D through practical examples, tutorials, and exercises. This enables the users to harness the power of structural designing with RISA-3D for their specific use. In this book, the author emphasizes on physical modeling, structural desining, creating load cases, specifying boundary conditions, preparation of project report. This book covers the various stages involved in analyzing. This book is specially meant for professionals and students in structural engineering, civil engineering, and allied fields in the building industry. Drama and Thrills – liberally spiced with Romance and Humor Marcia Thompson is a celebrated dancer in 1920's Melbourne Australia. When her best friend is kidnapped at Flemington racecourse, Marcia receives a ransom demand – the first of several – as other people she loves also fall prey to a very clever extortionist who will stop at nothing to ruin Marcia – financially, physically and emotionally. Marcia is driven to her wits end as the extortionist leads her on a not-so-merry dance around the state of Victoria. For a long time, she has no idea who this person is or why he is persecuting her. Her fiancé is Inspector Jack O'Brien who is singled out for special treatment by the extortionist, but through some dogged detective work he manages to break into the extortionist's group of accomplices. He does his best to protect Marcia but when the kidnapper strikes again, Marcia decides enough is enough and circumstances force her to hatch a daring plan that will end in either her death – or freedom.

It was the first and only time during combat operations in the Pacific theater that an Army Air Force unit would land with U.S. Marine assault elements across a hostile beach. The date was February 24, 1945 (D+5), and the beach on which the men of the 386th Air Service Group (ASG), U.S. Army Air Force (USAAF) landed was given the name of a color - Red. They possessed few of the combat skills Marine infantrymen would have had. They weren't trained to close with and destroy an enemy through close combat. They were specialists, trained in skills totally alien to the Marine "grunts" swarming ashore. Their skills, however, were critical to the successful execution and completion of Operation Detachment (code name for the island and battle destined to become legendary in the history of World War II). Red beach was one of the black sand beaches on the eastern shore of the island named - Iwo Jima. This is a brief history of the 386th ASG, USAAF. Their story could have been lost to history except for the tenacity of a few of the units veterans and their descendants. It's the account of a group of men who could accomplish almost anything asked of them. They worked 24/7 for months, without complaint, in an environment fraught with danger and instant death. They were part of a generation of Americans whose self-sacrifice, courage, and love of country set them apart from every other generation. These men were members of the generation that saved civilization as we know it, "The Greatest Generation," and they are nearly all gone now. Fortunately, their story survives and should serve as an inspiration to those generations of Americans who follow after them.

Go on a 60-year ride with Harley-Davidson's Sportster Things got a little weird in the American motorcycle industry after World War II. People hungered for new motorcycles, buying just about everything manufacturers could build. But on rare occasions a manufacturer produced a machine that nobody wanted. Such was the case with the Harley-Davidson Model K. The Model K had most of the features buyers wanted in a modern machine, like hand-operated clutches, foot-operated shifters, and cool-running aluminum heads, but it lacked perhaps the most important technological upgrade: a modern overhead-valve valve-train design. The Model K retained the antiquated side-valve design because of arcane AMA racing rules written when Harley-Davidson and Indian competed head-to-head on American racetracks, but by 1952 Indian was on its last legs. This should have made the Model K a massive sales success. What nobody counted on was the British bike invasion. Thanks to their modern overhead-valve engines, the lightweight British bikes humiliated the side-valve Harleys on the track and on the street. Upgrades to the Model K didn't help; Harley finally relented and introduced a new overhead-valve middleweight for the 1957 model year. Dubbed the Sportster, it was everything the Model K was not. More importantly, it was faster than the British competition. Thus began the Sportster's sixty-year reign. Harley-Davidson Sportster: Sixty Years tells the complete Sportster story. Noted Sportster expert Allen Girdler covers all the bikes--the XLCH, Caf_ Racer, XR1000, XLX, 883, Iron, Forty-Eight, Seventy-Two, and Nightster--that have made the Sportster one of the most iconic motorcycles on earth.

Small business owners and managers face increasing challenges in a difficult economic climate. One way to deal with daily struggles is to gain awareness of the obstacles and pitfalls...and know how to overcome them. Mathew Dickerson, one of Australia's leading IT entrepreneurs, makes this possible with his exciting and instructive book, Small Business Rules: The 52 Essential Rules to Be Successful in Small Business. In a logical and very readable format, Dickerson

describes fifty-two rules that, if followed, help a small business to succeed. Dickerson covers it all: setting high standards, turning perceived failures into positive learning experiences, being clear about commitment and purpose to evaluating attitudes toward the workplace. He also delves into interfacing with clients, and co-workers, identifying the strengths of one's staff and using them to the fullest. Every aspect pertinent to running and growing a small business is covered in this exceptional book.

Let me begin by saying that our Christian experience must be translated from the four walls of the church and into our day to day lifestyle. It is in the heartbeat of our calling that we should translate the love of God as we pick it up from church and take it to our workplaces. My mandate through this book is to strategically position you into a place of influence in your nation of calling within the marketplace. For a long time the marketplace has remained the reserve of the children of this world. 'The children of this world are in their generation wiser than the children of light' (Luke 16:8). By failing to take our position of dominion in the marketplace, we have put our God to shame. The name of God has been profaned by many people in this world. Have you realized that anytime you mention that you are born again in your workplace, you encounter ridicule, rejection and even persecution? People have continued to shamelessly talk foul things concerning Christianity and this has to stop. God is saying that He is ready to sanctify His great name that has been profaned. God wants to do this through you. God desires that you prosper in all that you do within the marketplace, and this you must remember is for His purposes. He is not doing it for you to be proud. God is doing it "that they may see and know, and understand together, that the hand of the LORD has done this, and the Holy One of Israel has created it" (Isaiah 41:20). God wants to introduce and establish His Kingdom in the marketplace through you. He will show Himself strong on your behalf for His purposes to be fulfilled in the earth. To many Christians, there has been and there remains to be a great misconception on the perception towards serving God. We see service in the full time ministry position as the only way to serve God. In everything we do, it is important to understand that it is because of the purposes of God that we were created. God is a wise investor and the gifting He invested in you is for the expansion of His Kingdom. God wants to show Himself strong through you. The Kingdom of God is within you and as such, you are supposed to carry it into your marketplaces. It has to manifest through you at your place of work, business and even in your relationships. You should remember that He chose you. You did not choose Him. To quite a number of Christians, business is secular work, whereas serving God in church is the only way to ascribe to ministry. This tendency is so prevalent in the church that many well meaning Christians do their business or work in offices without connecting it to ministry. That is why many Christians have this 'holier than thou' attitude when in church doing the things of God but when they get to their work stations they exhibit lucre luster performances, oblivious of the fact that we are commanded to work as unto God. Many Christians may be concerned with church work and even support it financially, but fail to see the connection between service at their work place and their Christian life. Some even think that if you really are serious about ministry, you ought to quit your job or give up your business in order to pursue a role in full time ministry. The object matter of this book is to bring every believer to the realization that we all were created for a purpose and that the faster we realize this and take up our positions the better. As Christians we are cut out and mandated to fulfill a specific assignment for God here on earth. Our mission is to honour God in our service by extending His will to all our activities.
