Schooling for Critical Consciousness addresses how schools can help Black and Latinx youth resist the negative effects of racial injustice and challenge its root causes. The book presents

vivid portraits of the schools as they implement various programs and practices, and traces the impact of these approaches on the students themselves. The authors make a unique contribution to the existing scholarship on critical consciousness and culturally responsive teaching by comparing the roles of different schooling models in fostering various dimensions of critical consciousness and identifying specific programming and practices that contributed to this work. Through their research with more than 300 hundred students of color, Seider and Graves aim to help educators strengthen their capacity to support young people in learning to analyze, navigate, and challenge racial injustice. *Schooling for Critical Consciousness* provides school leaders and educators with specific programming and practices they can incorporate into their own school contexts to support the critical consciousness development of the youth they serve.

Now part of the HBO docuseries "Exterminate All the Brutes," written and directed by Raoul Peck 2015 Recipient of the American Book Award The first history of the United States told from the perspective of indigenous peoples Today in the United States, there are more than five hundred federally recognized Indigenous nations comprising nearly three million people, descendants of the fifteen million Native people who once inhabited this land. The centuries-long genocidal program of the US settler-colonial regimen has largely been omitted from history. Now, for the first time, acclaimed historian and activist Roxanne Dunbar-Ortiz offers a history of the United States told from the perspective of Indigenous peoples and reveals how Native Americans, for centuries, actively resisted expansion of the US empire. With growing support for movements such as the campaign to abolish Columbus Day and replace it with Indigenous Peoples' Day and the Dakota Access Pipeline protest led by the Standing Rock Sioux Tribe, An Indigenous Peoples' History of the United States is an essential resource providing historical threads that are crucial for understanding the present. In An Indigenous Peoples' History of the United States, Dunbar-Ortiz adroitly challenges the founding myth of the United States and shows how policy against the Indigenous peoples was colonialist and designed to seize the territories of the original inhabitants, displacing or eliminating them. And as Dunbar-Ortiz reveals, this policy was praised in popular culture, through writers like James Fenimore Cooper and Walt Whitman, and in the highest offices of government and the military. Shockingly, as the genocidal policy reached its zenith under President Andrew Jackson, its ruthlessness was

Spanning more than four hundred years, this classic bottom-up peoples' history radically reframes US history and explodes the silences that have haunted our national narrative. An Indigenous Peoples' History of the United States is a 2015 PEN Oakland-Josephine Miles Award for Excellence in Literature.
