Named a Most Anticipated Book of Fall 2021 by The New York Times, USA Today, Vulture, The Week, and more! “There’s some kind of genius sorcery in this novel. It’s startlingly original, hilarious and harrowing by turns, finally transcendent. Watkins writes like an avenging angel. It’s thrilling and terrifying to stand in her wake.” —Jenny Offill, author of *Dept. of Speculation* and *Weather* A darkly funny, soul-rending novel of love in an epoch of collapse—one woman’s furious revisiting of family, marriage, work, sex, and motherhood. Since my baby was born, I have been able to laugh and see the funny side of things. a) As much as I ever did. b) Not quite as much now. c) Not so much now. d) Not at all. Leaving behind her husband and their baby daughter, a writer gets on a flight for a speaking engagement in Reno, not carrying much besides a breast pump and a spiraling case of postpartum depression. Her temporary escape from domestic duties and an opportunity to reconnect with old friends mutates into an extended romp away from the confines of marriage and motherhood, and a seemingly bottomless descent into the past. Deep in the Mojave Desert where she grew up, she meets her ghosts at every turn: the first love whose self-destruction still haunts her; her father, a member of the most famous cult in American history; her mother, whose native spark gutters with every passing year. She can’t go back in time to make any of it right, but what exactly is her way forward? Alone in the wilderness, at last she begins to make herself at home in the world. Bold, tender, and often hilarious, *I Love You but I’ve Chosen Darkness* reaffirms Watkins as one of the signal writers of our time.

This troubadour life is only for the fiercest hearts, only for those vessels that can be broken to smithereens and still keep beating out the rhythm for a new song. *Last Chance Texaco* is the first ever no-holds-barred account of the life of two-time Grammy Award-winner Rickie Lee Jones in her own words. It is a tale of desperate chances and impossible triumphs, an adventure story of a girl who beat the odds and grew up to become one of the most legendary artists of her time, turning adversity and hopelessness into timeless music. With candor and lyricism, the “Duchess of Coolsville” (Time) takes us on a singular journey through her nomadic childhood, to her years as a teenage runaway, through her legendary love affair with Tom Waits and ultimately her longevity as the hardest working woman in rock and roll. Rickie Lee’s stories are rich with the infamous characters of her early songs – “Chuck-E’s in Love,” “Weasel and the White Boys Cool,” “Danny’s All-Star Joint,” and “Easy Money”— but long before her notoriety in show business, there was a vaudevillian cast of hitchhikers, bank robbers, jail breaks, drug mules, a pimp with a heart of gold and tales of her fabled ancestors. In this tender and intimate memoir by one of the most remarkable, trailblazing, and tenacious women in music are never-before-told stories of the girl in the raspberry beret, a singer-songwriter whose music defied categorization and inspired American pop culture for decades.

A beautifully illustrated celebration of science from the clever people who bring you AQUILA magazine. Ideas are important. They change things. A single idea can start a war, save billions of lives, even rearrange whole planetary systems, or simply make a person giggle until they pee a little bit. They can be totally wrong but widely believed, or undoubtedly right and completely ignored. What’s more, they’re free, and anyone can have one—including you! *The Book of Big Science Ideas* looks at 15 brilliant science ideas and more than 50 ingenious thinkers who have helped shape our understanding of the world - whether they were right or wrong! Thinkers include, Wang Zhenyi, Louis Pasteur, Marie Curie, James Joule, Rosalind Franklin, Charles Darwin, Aristotle, Edith Clarke, Isaac Newton, Grace Hopper, Alan Turing, Ada Lovelace and many, many more! From established ideas like atoms, electricity and the solar system, and ideas that are still evolving such as gravity, energy and classification, right up to recent discoveries like AI and genetics - this jam-packed book takes a fresh approach to science.

Heartbreaking, hilarious, and brutally honest, *Going There* is the deeply personal life story of a girl next door turned household name. For more than forty years, Katie Couric has been an iconic presence in the media world. In her brutally honest, hilarious, heartbreaking memoir, she reveals what was going on behind the scenes of her sometimes tumultuous personal and professional life - a story she’s never shared, until now. Of the medium she loves, the one that made her a household name, she says, “Television can put you in a box; the flat-screen can flatten. On TV, you are larger than life but smaller, too. It is not the whole story, and it is not the whole me. This book is.” Beginning in early childhood, Couric was inspired by her journalist father to pursue the career he loved but couldn’t afford to stay in. Balancing her vivacious, outgoing personality with her desire to be taken seriously, she overcame every obstacle in her way: insecurity, an eating disorder, being typecast, sexism . . . challenges, and how she dealt with them, setting the tone for the rest of her career. Couric talks candidly about adjusting to sudden fame after her astonishing rise to co-anchor of the TODAY show, and guides us through the most momentous events and news stories of the era, to which she had a front-row seat: Rodney King, Anita Hill, Columbine, the death of Princess Diana, 9/11, the Iraq War . . . In every instance, she relentlessly pursued the facts, ruffling more than a few feathers along the way. She also recalls in vivid and sometimes lurid detail the intense pressure on female anchors to snag the latest “get”—often sensational tabloid stories like Jon Benet Ramsey, Tonya Harding, and OJ Simpson. Couric’s position as one of the leading lights of her profession was shadowed by the shock and trauma of losing her husband to stage 4 colon cancer when he was just 42, leaving her a widow and single mom to two daughters, 6 and 2. The death of her sister Emily, just three years later, brought yet more trauma—and an unwavering commitment to cancer awareness and research, one of her proudest accomplishments. Couric is unsparing in the details of her historic move to the anchor chair at the CBS Evening News—a world rife with sexism and misogyny. Her “welcome” was even more hostile at 60 Minutes, an unrepentant boys club that engaged in outright hazing of even the most established women. In the wake of the MeToo movement, Couric shares her clear-eyed reckoning with gender inequality and predatory behavior in the workplace, and downfall of Matt Lauer—a colleague she had trusted and respected for more than a decade. Couric also talks about the challenge of finding love again, with all the hilarity, false-starts, and drama that search entailed, before finding her midlife Mr. Right. Something she has never discussed publicly—why her second marriage almost didn’t happen. If you thought you knew Katie Couric, think again. *Going There* is the fast-paced, emotional, riveting story of a thoroughly modern woman, whose journey took her from humble origins to superstardom. In these pages, you will find a friend, a confidante, a role model, a survivor whose lessons about life will enrich your own.

Prepare to be shocked. From the man The Wall Street Journal hailed as a "Swiftean satirist" comes the most shocking book ever written! The Borowitz Report: The Big Book of Shockers, by award-winning fake journalist Andy Borowitz, contains page after page of "news stories" too hot, too controversial, too -- yes, shocking -- for the mainstream press to handle. Sample the groundbreaking reporting from the news organization whose motto is "Give us thirty minutes -- we'll waste it."

A father and husband's meditation on love, adolescence, and the mysterious mechanisms of poetic creation, from the acclaimed poet. The poet's art is revealed in stages in this "making-of" book, where we watch as poems take shape--first as dreams or memories, then as drafts, and finally as completed works set loose on the world. In the long poem "Must We Mean What We Say," a woman reader narrates in prose the circumstances behind poems and snippets of poems she receives in letters from a stranger. Who made up whom? Chiasson, an acclaimed poetry critic, has invented a remarkable structure where the reader and a poet speak to one another, across the void of silence and mystery. He is also the father of teenaged sons, and this volume continues the autobiographical arc of his prior, celebrated volumes. One long section is about the age of thirteen and the dawning of desire, while the title poem looks at the crucial age of fifteen and the existential threat of climate change and gun violence, which alters the calculus of adolescence. Though the outlook is bleak, these poems register the glories of our moment: that there are places where boys can kiss each other and not be afraid; that small communities are rousing and taking care of each other; that teenagers have mobilized for a better world. All of these works emerge from the secretive imagination of a father as he measures his own adolescence against that of his sons and explores the complex bedrock of marriage. Chiasson sees a perilous world both navigated and enriched by the passionate young and by the parents--and poets--who care for them.

The Crisis, founded by W.E.B. Du Bois as the official publication of the NAACP, is a journal of civil rights, history, politics, and culture and seeks to educate and challenge its readers about issues that continue to plague African Americans and other communities of color. For nearly 100 years, The Crisis has been the magazine of opinion and thought leaders, decision makers, peacemakers and justice seekers. It has chronicled, informed, educated, entertained and, in many instances, set the economic, political and social agenda for our nation and its multi-ethnic citizens.

Insightfully links the impact of U.S. foreign policy on the people of Latin America, the female voice in art and literature, and the need to break the silence around incest and other abuse.

"[The author] tells the stories of twelve mixed-blood women who, steeped in the tradition of their Indian mothers but forced into the world of their white fathers, fought to find their identities in a rapidly changing world. In an era when most white women had limited opportunities outside the home, these mix-blood women often became nationally recognized leaders in the fight for Native American rights. They took the tools and training the whites provided and used them to help their people. They found differing paths--medicine, music, crafts, the classroom, the lecture hall, the stage, the written word--and walked strong and tall. These women did far more than survive; they extended a hand to help their people find a place in a hard new future."--Back cover.

Selected as ForeWord Magazine's 1999 Gay/Lesbian Book of the Year In Pratt's fourth volume of poems, Walking Back Up Depot Street, we are led by powerful images into what is both a story of the segregated rural South and the story of a white woman named Beatrice who is leaving that home for the postindustrial North. Beatrice searches for the truth behind the public story--the official history--of the land of her childhood. She struggles to free herself from the lies she was taught while growing up--and she finds the other people who are also on this journey. In these dramatically multivocal narrative poems, we hear the words and rhythms of Bible Belt preachers, African-American blues and hillbilly gospel singers, and sharecropper country women and urban lesbians. We hear the testimony of freed slaves and white abolitionists speaking against Klan violence, fragments of speeches by union organizers and mill workers, and snatches of songs from those who marched on the road to Selma. Beatrice walks back into the past and finds the history of resistance that she has never been taught; she listens to her fellow travelers as they all get ready to create the future.

An in-depth examination of humankind's first mode of travel traces the history of walking from the first human migrations to the vast, marching armies of ancient Greece and Rome, with special emphasis placed on the relationship between walking and social class.

First published in 1943, The Little Prince by Antoine de Saint-Exupéry has been translated into more than 250 languages, becoming a global phenomenon. The Sahara desert is the scenery of Little Prince's story. The narrator's plane has crashed there and he has scarcely some food and water to survive. Trying to comprehend what caused the crash, the Little Prince appears. The serious blonde little boy asks to draw him a sheep. The narrator consents to the strange fellow's request. They soon become friends and the Little Prince informs the pilot that he is from a small planet, the asteroid 325, talks to him about the baobabs, his planet volcanoes and the mysterious rose that grew on his planet. He also talks to him about their friendship and the lie that evoked his journey to other planets. Often puzzled by the grown-ups' behavior, the little traveler becomes a total and eternal symbol of innocence and love, of responsibility and devotion. Through him we get to see how insightful children are and how grown-ups aren't.

Children use their heart to feel what's really important, not the eyes. Heart-breaking, funny and thought-provoking, it is an enchanting and endlessly wise fable about the human condition and the power of imagination. A book about both childhood and adulthood, it can be read as a parable, a war story, a classic children's fairy-tale, and many more things besides: The Little Prince is a book for everyone; after all, all grown-ups were children once.

Recapitulates the tumult, idealism, and passion of the 1960s as the author retraces his career as a reporter for "Look" magazine, acknowledging the tremendous formative influences that the era had on him. Over the past 35 years more than 100 individual astronauts and cosmonauts have performed nearly 200 EVAs, (spacewalks), either singularly or in teams in Earth orbit, deep space or on the Moon. In 'Walking in Space: Development of Space Walking Techniques' the author, Dave Shayler, shows how hardware and crew members are prepared for, protected and supported during every EVA. He demonstrates how past experiences have led to improved training techniques and how this, in turn, has provided many successes and future developments.
