Stephen Haliczer has mined rich documentary sources to produce the most comprehensive and enlightening picture yet of the Inquisition in Spain. The kingdom of Valencia occupies a uniquely important place in the history of the Spanish Inquisition because of its large Muslim and Jewish populations and because it was a Catalan kingdom, more or less "occupied" by the despised Castilians who introduced the Inquisition. Haliczer underscores the intensely regional nature of the Valencian tribunal. He shows how the prosecution of religious deviants, the recruitment and professional activity of Inquisitors and officials, and the relations between the Inquisition and the majority Old Christian population all clearly reflect the place and the society. A great series of pogroms swept over Spain during the summer of 1391. Jewish communities were attacked and the Jews either massacred or forced to convert. More than ninety percent of the victims of the Valencian Inquisition a century later were descendants of those who chose conversion, the conversos. Haliczer argues convincingly against those who see all the conversos as "secret Jews." He finds, on the contrary, that a wide range of religious beliefs and practices existed among them and that some were even able to assimilate into Old Christian society by becoming familiares of the Inquisition itself. Nevertheless, it was controversy over the sincerity of the converted which spawned the first proposals for the establishment of a Spanish national Inquisition. That very same controversy, persisting in the writings of history, may be resolved by Haliczer's stimulating discoveries. Inquisition and Society in the Kingdom of Valencia is a major contribution to the lively field of Inquisition studies, combining institutional history of the tribunal with socioreligious history of the kingdom. The many case histories included in the narrative give both Valencian society and the Inquisition very human faces. *Against the Tide, Towards the Kingdom* is the story of the Urban Vision community in New Zealand. This book recounts the story of a group of young Christian adults who over the last fifteen years have relocated to the colorful ends of their city to share life with those who are struggling, homeless, sick, poor, neglected, or otherwise marginalized. The community has grown over time to seven neighborhoods where on any given day you may find "Urban Visionites" growing vegetables amidst the concrete, teaching English to refugees, offering alternative education programs to out of school teenagers, fostering children, doing church with the homeless, offering friendship to the mentally ill, roasting fair trade coffee, running kids clubs, moms groups, tenant meetings or just sharing yet another cup of tea with their neighbors. In fact sharing is a good summary of the whole shape of this exciting movement. They share homes, food, money, vehicles, jobs, prayers, dreams, conversations, fun, tears, pain, hope, healing, transformation . . . they share the whole of life with each other and with their neighbors. They live the gospel, this good news of Jesus.

Joan Miro (1893-1983) drew his creative inspiration for his paintings, sculptures and ceramics from a great array of sources,

particularly from natural objects--such as stones, woods, bits of iron, branches, peacock feathers, pebbles or other suggestive forms--which he would collect on his daily walks and arrange in his studio into a unified inspirational universe. In this beautifully produced volume, photographs by Jean-Marie del Moral document the magical and enticing world of Miro's studio. Alongside images of his inspirational objects and intimate arrangements of household things, numerous sculptures, puppets, sketches and other works by the artist are reproduced, with gorgeous color and black-and-white interior shots and portraits of Miro at work and attending a theatrical performance for which he designed the costumes.
