A collection of African wisdom gorgeously illustrated by artists from Ghana, South Africa, Zimbabwe, Canada, the United States and more. Aphorisms are universal. They give guidance, context and instruction for life's issues, and they help us understand each other and the world around us. We use them every day, yet never think about where they came from or why they exist. In this beautifully illustrated collection, Eric Walters brings us classic sayings from the places where this shared wisdom began. Ashanti, Sukuma, Akan and Kikuyu: all of these cultures use the portable and easily shared knowledge contained in aphorisms, and from these cultures and more this communal knowledge spread. This book is a celebration of art, of community and of our common history.

In this book, we introduce the themes and approaches covered in the issue Sustainable Tourism Marketing. Its objective was to analyze the main contributions made as a result of research related to sustainable tourism–marketing management and current trends in the field. This book gathered articles about the marketing of destinations, and the marketing and communication management of companies and tourism organizations from a sustainable tourism perspective.
