Based on Mr Hudson's identity, the book is featuring destinations for gays, but not necessarily gay destinations. It is about travelling in style for everyone who is looking for something different and special - no matter if men or women, travelling solo or as a couple. Mr

Hudson Explores shows that every part of a trip is an incredible experience. The core content of the book will consist of 20 cities in the Northern Hemisphere and showcases the very best the destination has to offer. Each guide will give a general introduction to the city and, if applicable, its relevance for the gay community. It showcases various locations on culture and art, the most inspiring museum to visit, traditional and

The Best of Peter Egan offers a "greatest hits" collection of Egan's motorcycle musings from the past four decades, delivered in his signature, wise but amusing, style. Peter Egan's writing invites you to pull up a chair, pour a little scotch, and relax while he shares with you his tales from the road, his motorcycling philosophy,

and his keen

observations about the two-wheeled life. For some forty years, Peter Egan's columns and feature articles have been among Cycle World's most anticipated monthly content. Egan's legions of fans know they will gain a fresh perspective on motorcycling from each of his articles. Drawings from motoring artist Hector Cademartori beautifully illustrate Egan's musings, and a foreword by super-enthusiast Jay

This book examines the  
interactional practices of  
nurse practitioners (NPs)  
and the delivery of health  
care in the US. The author  
takes a discourse analytic  
approach, examining the  
linguistic resources that  
NPs employ in their  
interactions with  
patients. These linguistic  
features are connected to  
the concept of  
professional competency  
with specific focus on the  
enactment of the patient-  
centered approach.  
Analytic focus is placed  
on how NPs address

*organizational responsibilities during medical visits with patients, the form and function of patient education, the use of indirect speech, and the role that small talk plays in health care encounters. The book explores the understudied professional field of nurse practitioners and examines their linguistic practices with an eye on crossing disciplinary boundaries, integrating research from linguistics, discourse analysis and health communication. This book is dedicated to Aristid Lindenmayer on the occasion of his 60th birthday on November 17, 1985. Contributions range from mathematics and theoretical computer science to biology. Aristid Lindenmayer introduced language-theoretic models for developmental biology in 1968. Since then the models have been customarily referred to as L systems. Lindenmayer's invention turned out to be one of the most beautiful examples of interdisciplinary science: work in one area (developmental biology) induces most fruitful ideas in

other areas (theory of formal languages and automata, and formal power series). As evident from the articles and references in this book, the interest in L systems is continuously growing. For newcomers the first contact with L systems usually happens via the most basic class of L systems, namely, DOL systems. Here "0" stands for zero context between developing cells. It has been a major typographical problem that printers are unable to distinguish between 0 (zero) and 0 (oh). Thus, DOL was almost always printed with "oh" rather than "zero", and also pronounced that way. However, this misunderstanding turned out to be very fortunate. The wrong spelling "DOL" of "DOL" could be

read in the suggestive way: DO L  
Indeed, hundreds of researchers  
have followed this suggestion.  
Some of them appear as  
contributors to this book. Of the  
many who could not contribute,  
we in particular regret the  
absence of A. Ehrenfeucht, G.  
Herman and H.A. Maurer whose  
influence in the theory of L  
systems has been most  
significant.
