them monstrous. In The Wetiko Legal Principles, Hadley Friedland explores how the concept of a wetiko can be used to address the unspeakable happenings that endanger the lives of many Indigenous children. Friedland critically analyses Cree and Anishinabek stories and oral histories alongside current academic and legal literature to find solutions to the frightening rates of intimate violence and child victimization in Indigenous communities. She applies common-law legal analysis to these Indigenous stories and creates a framework for analysing stories in terms of the legal principles that they contain. The author reveals

similarities in thinking and theorizing around the dynamics of wetikos and offenders in cases of child sexual victimization. Friedland's respectful, strength-based, trauma-informed approach builds on the work of John Borrows and is the first to argue for a legal category derived from Indigenous legal traditions. The Wetiko Legal Principles provides much needed direction for effectively applying Indigenous legal principles to contemporary social issues.

A companion to Smith and Hogan: Criminal Law this work provides all the necessary materials; cases, statutes, reports, extracts from books and articles, for an in-depth study of the general principles of criminal law. This edition has been updated to incorporate new legislation such as the Sexual Offences Act 2003 and relevant new case law.

This open access book provides a comparative perspective on capital punishment in Japan and the United States. Alongside the US, Japan is one of only a few developed democracies in the world which retains capital punishment and continues to carry out executions on a regular basis. There are some

similarities between the two systems of capital punishment but there are also many striking differences. These include differences in capital jurisprudence, execution method, the nature and extent of secrecy surrounding death penalty deliberations and executions, institutional capacities to prevent and discover wrongful convictions, orientations to lay participation and to victim participation, and orientations to “democracy” and governance. Johnson also explores several fundamental issues about the ultimate criminal penalty, such as the proper role of citizen preferences in governing a system of punishment and the relevance of the feelings of victims and survivors.

The case of Stefan Kiszko casts a dark shadow over British

justice. Totally unconnected to the murder of which he was convicted—that of a young girl Lesley Molseed—he spent 16 years in prison tormented as a sex-offender and suffering from what one expert described as ‘delusions of innocence’. As author Michael O’Connell explains, it was in fact the system by which he was ensnared which was suffering from ‘delusions of guilt’. Kiszko could not have been Lesley’s attacker as subsequently established by DNA and the medical fact that he could not produce sperm. But a false confession written for him by a corrupt police officer set in train proceedings from which he was never to recover, dying only a short time after his eventual release. In this book, Michael O’Connell investigates every small detail of the case with

especial reference to the foibles of the lawyers, investigators and scientists involved, all of whom either missed or ignored the signs that should have pointed to an early discharge from a misguided prosecution. The book includes the participation of a prosecutor who went on to become Lord Chief Justice and a leading defence barrister who became Home Secretary before his elevation to the House of Lords. Everyone seems to have become caught up in the momentum originally fuelled by policing methods that are hopefully now long gone. The most detailed treatment available. Contains Kiszko's original confession and retraction. Explains the points at which the case went wrong. Looks at the motivations of those involved. Deploying literary analysis, theories of emotion from the sciences and humanities, and an archival account of Tudor history, *Emotion in the Tudor Court* examines how literature both reflects and constructs the emotional dynamics of life in the Renaissance court. In it, Bradley J. Irish argues that emotionality is a foundational framework through which historical subjects embody and engage their world, and thus can serve as a fundamental lens of social and textual analysis. Spanning the sixteenth century, *Emotion in the Tudor Court* explores Cardinal Thomas Wolsey and Henrician satire; Henry Howard, Earl of Surrey, and elegy; Sir Philip Sidney and Elizabethan pageantry; and Robert Devereux, Earl of Essex, and factional literature. It demonstrates how the dynamics of disgust, envy, rejection, and dread, as they are understood in the

modern affective sciences, can be seen to guide literary production in the early modern court. By combining Renaissance concepts of emotion with modern research in the social and natural sciences, *Emotion in the Tudor Court* takes a transdisciplinary approach to yield fascinating and robust ways to illuminate both literary studies and cultural history.

This book examines social aspects of humour relating to the judiciary, judicial behaviour, and judicial work across different cultures and eras, identifying how traditionally recorded wit and humorous portrayals of judges reflect social attitudes to the judiciary over time. It contributes to cultural studies and social science/socio-legal studies of both humour and the role of emotions in the judiciary and in judging. It

explores the surprisingly varied intersections between humour and the judiciary in several legal systems: judges as the target of humour; legal decisions regulating humour; the use of humour to manage aspects of judicial work and courtroom procedure; and judicial/legal figures and customs featuring in comic and satiric entertainment through the ages. Delving into the multi-layered connections between the seriousness of the work of the judiciary on the one hand, and the lightness of humour on the other hand, this fascinating collection will be of particular interest to scholars of the legal system, the criminal justice system, humour studies, and cultural studies.

The real reason for the emergence of this book is that it is hard to find resources to explain complex issues of the EU Law in plain language, which makes it very difficult for those taking an interest, in particular law students. Moreover, many years of teaching experience in this subject and seeing students experience difficulties is the key driver behind this book. This book

does not repeat material that is available in many textbooks that are in print. Rather, it endeavours to present every topic in plain language and concludes every chapter with a fictitious explanatory sample case. In other words, it is an introduction to the subject of EU Law, the objective of which is to explain the topic both theoretically and in its application dimension. Additionally, this book will assist students to prepare for courseworks/examinations. At the end of the book there is also a test that summarizes all the subjects contained in the book, which is appropriate to the first stage SQE (Solicitors Qualifying Examination) examination model that will be introduced in

With expert evidence used more and more often in criminal jury cases, evaluation of its admissibility and presentation is being increasingly thrust into the spotlight. However, jury room secrecy has long prevented a rigorous analysis of its complexities. Expert Evidence and Criminal Jury Trials draws

on an unprecedented study carried out in Commonwealth jurisdictions which have recently granted access to jurors, offering a unique exploration of the presentation and comprehension of expert evidence in criminal jury trials and a critical perspective on parallel UK processes. The authors combine empirical research conducted in the courtroom with expert academic analysis, examining, analysing, and comparing the views of not only real jurors, but also courtroom lawyers, judges, and experts across over 50 trials to gauge how complex and sometimes conflicting expert evidence is perceived and understood by all parties. Examples of modern technologies used in expert evidence, including DNA analysis and facial and body-mapping, are considered, and discussion of the challenges they pose

covers not only issues of procedure and approach, but also perceptual issues and those of cognitive evaluation. This innovative study aims to facilitate a broader understanding of the use of expert evidence, what problems exist with it, and how such problems influence the communication of information to jurors. While the survey that informs the book relates to criminal trials in three Australian jurisdictions, the legal and psychological issues explored transcend national boundaries, allowing this book to fill a gap in the market for a practical discussion of expert evidence and its use that will be relevant to practitioners in any jurisdiction which utilises an adversarial trial system or juries in criminal trials.

William Blackstone's Commentaries on the Laws of England (1765-69) is perhaps the most elegant and influential legal text in the history of the common law. By one estimate, Blackstone has been cited well over 10,000 times in American judicial opinions alone. Prominent in recent reassessment of Blackstone and his works, Wilfrid Prest also convened the Adelaide symposia which have now generated two collections of essays: Blackstone and his Commentaries: Biography, Law, History (2009), and Re-Interpreting Blackstone's Commentaries: A Seminal Text in National and International Contexts (2014). This third collection focuses on

Blackstone's critics and detractors. Leading scholars examine the initial reception of the Commentaries in the context of debates over law, religion and politics in eighteenth-century Britain and Ireland. Having shown Blackstone's volumes to be a contested work of the Enlightenment, the remaining chapters assess critical responses to Blackstone on family law, the status of women and legal education in Britain and America. While Blackstone and his Commentaries have been widely lauded and memorialised in marble, this volume highlights the extent to which they have also attracted censure, controversy and disparagement.

Foreword by Sir Peter Gross (Lord Justice of Appeal). ABOUT THE AUTHORS Narita Bahra QC is one of the most sought after and able leading defence barristers instructed to defend in heavyweight Crime and Business Crime cases. She has been instructed in a number of the high-profile cases in which disclosure failings by the Prosecuting authorities have been unmasked. In 2018, four of these cases became the subject of review by the House of Commons Select Committee. Narita's most recent success resulted in her exposing an expert witness and significant disclosure failings. She has cemented a reputation as a barrister who can skilfully deal with the most difficult of disclosure cases. Her excellent track record, high success rate and commitment to fighting fearlessly for her client's best interests make her the leading choice in high profile disclosure cases. She

regularly appears on Sky News and BBC news as a legal correspondent and is a regular author and contributor to legal journals. Don Ramble is a specialist prosecution barrister with 20 years' experience in the criminal courts. He has acted as disclosure counsel in some of the highest profile criminal trials in recent years, establishing himself as an expert in the field. His reputation and knowledge sees him called upon regularly to advise on disclosure issues in large and complex cases across the UK. This open access publication discusses exclusionary rules in different criminal justice systems. It is based on the findings of a research project in comparative law with a focus on the question of whether or not a fair trial can be secured through evidence exclusion. Part I explains the legal framework in which exclusionary rules function in six legal systems: Germany,

Switzerland, People's Republic of China, Taiwan, Singapore, and the United States. Part II is dedicated to selected issues identified as crucial for the assessment of exclusionary rules. These chapters highlight the delicate balance of interests required in the exclusion of potentially relevant information from a criminal trial and discusses possible approaches to alleviate the legal hurdles involved.

The Concentrate Q&As are a result of a collaboration involving hundreds of law students and lecturers from universities across the UK. The series offers you better support and a greater chance to succeed on your law course than any of the competitors. 'A sure-fire way to get a 1st class result' (Naomi M, Coventry University) 'My grades have dramatically improved since I started using the OUP Q&A guides' (Glen Sylvester, Bournemouth University)
