Translated by the noted Victorian Orientalist, Sir Richard F. Burton, from the original Sanskrit, these ancient Indian folk tales influenced such later works as 1001 Arabian Nights and Boccaccio's Decameron. First published in 1870, these stories will entertain and delight modern readers while illuminating the life and customs of classical India.

Simcha Guterman's, Leaves from Fire, is a firsthand account written with the deep sense of comprehension he was documenting the fate of his people. Knowing full well that his life was in danger, Simcha chronicled the occurrences of the Holocaust on long scraps of paper, as they happened right before his eyes. The events described take place in Poland, during the first years of World War II. The author stuffed long paper scraps, written in Yiddish, into bottles and hid in them in different places. One of these bottles was discovered after the war. Simcha Guterman's work has been published and translated into eight different languages, receiving high praise from critics. The book's evocative illustrations were drawn by Yaakov Guterman, the author's son.

The intense and continuing popularity of the long-running television show *Buffy the Vampire Slayer* (1997-2003) has long been matched by the range and depth of the academic critical response. This volume, the first devoted to the show's imaginative and widely varied use of music, sound, and silence, helps to develop an increasingly important and inadequately covered area of research - the many roles of music in contemporary television. In addressing this significant gap, this book provides an exemplary overview of the functions of music and sound in the interpretation of a television show. This is done through analyses that focus on scoring and source music, the title theme, the music production process, the critically acclaimed musical episode (voted number 13 in Channel Four's One Hundred Greatest Musicals), the symbolic and dramatic use of silence, and the popular reception of the show by its international fan base. In keeping with contemporary trends in the study of popular musics, a variety of critical approaches are taken from musicology, cultural studies, and media and communication studies, specifically employing critique, musical analysis, industry studies, and hermeneutics.

I lived in a world of darkness, never to see the light again. It's been eleven years since my father cursed Crystal City, since he condemned me to a life of loneliness and misery. By taking away everything that my mother loved, he took everything that I knew and cared for. Everything, but the throne. Only what good was being a queen in a city of mindless killers? A city that would never see the sunlight until the day of my death. I truly had nothing to live for... ..Or so I thought. The night that Wolfe was dragged into my palace, I knew that my life would never be the same. We were childhood friends once, but we went our separate ways. He became captain of the pirates, and I ascended to the diamond throne. My once sworn protector had become my enemy, but we were both alone, and the connection we felt was almost unbearable to ignore. My heart only cracked after my father abandoned me, but Wolfe would completely shatter it. For someone that hasn't felt anything for years, that wasn't such a bad thing.

*Soldier, explorer, and adventurer, British author CAPTAIN SIR RICHARD FRANCIS BURTON (1821-1890) is perhaps best remembered for his notoriously unexpurgated translations of *The Arabian Nights* and *the Kama Sutra*, which scandalized-and titillated-Victorian readers. Lesser known, however, is his intriguing collection of classic Hindu tales of adventure, magic, and romance, first published in 1870. Enlivened by Burton's own imagination-he was the first to translate them from Sanskrit-these stories purport to demonstrate "the exceeding folly of many wise fools," "the use and misuse of magic pills," "that a man's wife belongs not to his body but to his head," "the marvellous delicacy of three queens," and more. This obscure, delightful work is a fascinating look at both Indian mythology and Victorian cultural anthropology.*

A SYNTHESIS OF MODERN LIFE: A VISIONARY OVERVIEW OF THE EFFORT AND MISSION OF HUMANITY by Shamcher Bryn Beorse (Brynjolf Bjorset) The book Man and this Mysterious Universe was originally described as a synthesis of the many aspects of modern civilization, bringing within its scope the contribution of the East as well as of the West, showing how it has grown from the civilization of the past and how it will probably develop into the civilization of the future. Or as the author put it more simply: a survey of Western and Eastern Sciences. Ranging through various disciplines from Everyday Life, Art, Education, World Events and Mysticism, Beorse describes the evolution of humanity and the responsibilities of each of us in this process. Seen all together, they convey an image of the totality of the human endeavour: occurring both outside of time and in time, on schedule, as a great play. "This comprehensive and refreshing picture is sorely needed at this time of narrow outlook and overspecialization," wrote the distinguished psychologist, educator and author, Dr. Philip B. Ballard. Inspired to write by the great sage, Inayat Khan, Beorse combined three former works into one for Man and This Mysterious Universe. Written during WWII, then added to with new information, the book was first published in 1949. His previous work, Distribute or Destroy, had been in the field of economics. Beorse further widened his scope in this publication, whose title refers to the popular physics book by James Jeans, This Mysterious Universe. Here Beorse inserts humanity into this assessment of a universe of vibrations and events, creating Man and This Mysterious Universe. "There is no great difference between rock, a tree, a man or a loving thought carving its way through the universe like a ray of the sun."

"When Sofia Claremont was kidnapped to a sunless island, uncharted by any map and ruled by the most powerful vampire coven on the planet, she believed she'd forever be a captive of its dark ruler, Derek Novak. Now, after months of surviving an endless night, the morning sun may soon rise again for Sofia. Something has possessed Derek's heart and he offers her a gift no human slave has ever been given in the history of his cursed island: escape. High school, prom and a chance to move on with her life now await her. But will she be able to forget the horrors that steal her sleep away at night? ... or the feelings that haunt her for that tormented prince of darkness?"--Page 4 of cover.

With an uncanny relevance to today's world and inspired by the life of its author, Karl's Story, is a WW II child refugee's tale of resilience, hope and courage as told through the narrative of her beloved teddy bear, Karl .A story perfect for all ages: read to children by parents, grandparents and teachers alike. It has been read many times to middle elementary grades. A book to be handed down from

parent to child to child for generations to come. Karl, "a very old teddy bear," has a magic gift- he can tell stories to children who are still young enough to understand toy talk . Karl's Story begins in Europe. It's about Karl, the young girl Karin, and Mimi the mind reading cat, ... how the three friends experience and survive WW II and then escape from communism to a new and hope-filled life with his beloved friend Karin .Their journey, their story, enchants children but in the sense of The Little Prince speaks timelessly to adults as well . Karl's Story tells of European refugees and is as relevant today as then. The chaos of the time turned the world of the three friends upside down, slowly at first, from no more whipped cream at birthday parties to ever more frequent air raids, crashing bombs, and a harrowing train ride, with Karl and Mimi stuffed in Karin's old wicker trunk. In the journey Karin loses all she ever knew or loved, but goes on to rebuild her world in America. The book is categorized as Children's Fiction because of its charming cover and talking stuffed animals but is inspirational to young and old alike, and a perfect antidote in these still troubled times; this is indeed a book for all.

Environmentalists worry about too much carbon dioxide, but what's too little? What if global financiers manipulated the global warming crisis to gain control over humanity's resources, freedoms, and population? What if someone with the financial and technical abilities decided mankind was a virus and used carbon dioxide trapping technology to plunge population levels by crashing life-essential CO2 to new lows? These are questions Anna Picard must face in The Carbon Trap, the first book in The Carbon Series. At the height of the global warming crisis, the United Nations attempts to control all carbon emissions, and authorizes a series of programs it deems necessary to save humanity. A progressive US government enthusiastically endorses the UN Carbon Trapping program, and to help pay for it, will impose carbon taxes, draconian regulations, and... it will secretly sell Alaska. Anna Picard is an amoral fixer, an employee of Agenda 21 member and global financier Alexis Swanson had trained to help recruit his corporate army and neutralize his enemies. It is her job to unleash a global hacker network to help destroy the carbon based industries and funnel insider-trading profits to Swanson. One of her recruits is Dr. Sven Johansson, a brilliant geneticist and President of Snath Biotechnology, who designs life forms to trap CO2. But Sven has more ambitious plans. At a UN conference in the Maldives held to impose draconian carbon regulations, not everyone is happy, some industrial executives realize data has been falsified. To protect her scheme, Anna frames one of the execs for murder. Her plans are complicated when she falls in love with Dr. Pete Heyward, the son of the man she framed for murder. Pete is a US Marine amputee who sees past her malevolent deeds and tries to rejuvenate the morality of her youth. After a series of genetically modified carbon trapping life forms is unleashed upon the Earth, Anna must confront the evils she helped unleash, and prevent an even bigger disaster from unfolding that would destroy most life on Earth. This is a high-tech ecological thriller that takes the reader from the Maldives, to the French Riviera, and the heartland of Texas. It introduces cutting edge technologies and concepts, used for the first time in a novel, that reveal striking implications for society.
