

*Allez Viens Chapter 1*

The series is a platform for contributions of all kinds to this rapidly developing field. General problems are studied from the perspective of individual languages, language families, language groups, or language samples. Conclusions are the result of a deepened study of empirical data. Special emphasis is given to little-known languages, whose analysis may shed new light on long-standing problems in general linguistics.

This is a concise and accessible guide to the syntax of Modern French, providing a clear overview of those aspects of the language that are of particular interest to linguists. A broad variety of topics are covered, including the development and spread of French; the evolution of its syntax; syntactic variation; lexical categories; noun, verb and adjective phrases; clause structure; movement; and agreement. Drawing on the work of a wide range of scholars, it highlights the important role of French in the development of syntactic theory and shows how French challenges some fundamental assumptions about syntactic structure. An engaging and in-depth guide to all that is interesting about French, *The Syntax of French* will be invaluable to students and scholars of syntactic theory and comparative linguistics.

Why did Italo Calvino decide to translate *Les Fleurs bleues* by Raymond Queneau? Was his translation just a way to pay a tribute to one of his models? This study looks at Calvino's translation from a literary and linguistic perspective: Calvino's *I fiori blu* is more than a rewriting and a creative translation, as it contributed to a revolution in his own literary language and style. Translating Queneau, Calvino discovered a new fictional voice and explored the potentialities of his native tongue, Italian. In fact Calvino's writings show a visible evolution of poetics and style that occurred rather abruptly in the mid 1960s; this sudden change has long been debated. The radical transformation of his style was affected by several factors: Calvino's new interests in linguistics, in translation theory, and in the act of translation. *Translation as Stylistic Evolution* analyses several passages in detail and scrutinizes quantitative data obtained by comparing digital versions of the original and Calvino's translation. The results of such assessment of Calvino's text-consistency suggest clear interpretations of the motives behind Calvino's radical and remarkable change of style that are tied to his notion of creative translation.

Holt French Assessment Guide 1996

***The centrality of fantasy to French literary culture has long been accepted by critics, but the sonorous dimensions of the mode and its wider implications for musical production have gone largely unexplored. In this book, Francesca Brittan invites us to listen to fantasy, attending both to literary descriptions of sound in otherworldly narratives, and to the wave of 'fantastique' musical works published in France through the middle decades of the nineteenth century, including Berlioz's 1830 Symphonie fantastique, and pieces by Liszt, Adam, Meyerbeer, and others. Following the musico-literary aesthetics of E. T. A. Hoffmann, they allowed waking and dreaming, reality and unreality to converge, yoking fairy sound to insect song, demonic noise to colonial 'babbling', and divine music to the strains of water and wind. Fantastic soundworlds disrupted France's native tradition of marvellous illusion, replacing it with a magical materialism inextricable from republican activism, theological heterodoxy, and the advent of 'radical' romanticism.***
