"The Little Red Foot" by Robert W. Chambers. Published by Good Press. Good Press publishes a wide range of titles that encompasses every genre. From well-known classics & literary fiction and non-fiction to forgotten—or yet undiscovered gems—of world literature, we issue the books that need to be read. Each Good Press edition has been meticulously edited and formatted to boost readability for all e-readers and devices. Our goal is to produce eBooks that are user-friendly and accessible to everyone in a high-quality digital format.

This guide to carving miniature wildfowl includes scale drawings and step-by-step photographs for seven projects. The birds illustrated include puffins, robins, eagles, partridges and bluebirds.

The Milwaukee Art Museum's collection of American folk art reflects the art worlds' increasing interest in the genre. A major part of the collection comes from Michael and Julie Hall's extensive collection, acquired by the museum in the early 1990s. Parts of the collection went on nation-wide tour during 1993-1995, with this volume

clearly explaining the importance of the genre, the vision of the collectors, and the beauty of the pieces of art, all produced by self-taught artists. Distributed for the Milwaukee Art Museum, Milwaukee, Wisconsin.

Part documentary, part nostalgic history, and part informational catalogue, *Waterfowling on the Chesapeake, 1819–1936* explores a century of hunting on the Chesapeake Bay and its major tributaries—from the heyday of gun clubs and market shooting to the rise of conservation law. Drawing on oral histories and period documents and artifacts, C. John Sullivan, a longtime collector of decoys and hunting paraphernalia and a frequent guest curator of exhibits, looks at the effects of technological change, the relationship between hunter and dog, the recognition of decoys as folk art, and the history of hunting. He also introduces us to famous and lesser-known carvers and others who

This innovative study re-examines the dynamics of race relations in the post--Civil War South from an altogether fresh perspective: field sports. In the late nineteenth and early twentieth centuries, wealthy white men from Southern cities and the industrial North traveled to the hunting and fishing lodges of the old Confederacy -- escaping from the office to socialize among like-minded peers. These sportsmen depended on local black guides who knew the land and fishing holes and could ensure a successful outing. For whites, the ability to hunt and fish freely and employ black laborers became a conspicuous display of their wealth and social standing. But hunting and fishing had been a way of life for all Southerners -- blacks included -- since colonial times. After the war, African Americans used their mastery of these sports to enter into market activities normally denied people of color, thereby becoming more economically independent from their white employers. Whites came to view black participation in hunting and fishing as a serious threat to the South's labor system. Scott E. Giltner shows how African-

American freedom developed in this racially tense environment -- how blacks' sense of competence and authority flourished in a Jim Crow setting. Giltner's thorough research using slave narratives, sportsmen's recollections, records of fish and game clubs, and sporting periodicals offers a unique perspective on the African-American struggle for independence from the end of the Civil War to the 1920s. -- Stephen A.
