It was A.D. 284. Christians were enjoying a time of peace in the Roman Empire. But would it last?

Another Calculus book? As long as students find calculus scary, the failure rate in mathematics is higher than in all other subjects, and as long as most people mistakenly believe that only geniuses can learn and understand mathematics, there will always be room for a new book of Calculus. We call it *Calculus Light*. This book is designed for a one semester course in "light" calculus – mostly single variable, meant to be used by undergraduate students without a wide mathematical background and who do not major in mathematics but study subjects such as engineering, biology or management information systems. The first chapter contains a historical background of calculus. Every scientific achievement involves people and therefore characterized by victories and disappointments, intrigues and hope. All of these elements exist in the story behind calculus and when you add the time dimension, starting 2400 years ago, it is a saga. We hope the reader enjoys reading this chapter as much as we enjoyed the writing. In addition to classic calculus the book provides tools for practical applications such as Fourier series, Lagrange multipliers and elementary numerical methods.

A One-Stop Source Book for Individuals and Professionals

Bowker's Directory of Videocassettes for Children 1999

A Cumulative Author List Representing Library of Congress Printed Cards and Titles Reported by Other American Libraries

A wealth of information, now in one comprehensive sourcebook. Completely updated for 2001, with thousands of new entries & enhancements to existing entries, this Ninth Edition is the most comprehensive resource available for people with disabilities, detailing Independent Living Centers, Rehabilitation Facilities, State & Federal Agencies, Associations & Support Groups. This one-stop resource also provides immediate access to the latest products & services for people with disabilities, such as Periodicals & Books, Assistive Devices, Employment & Education Programs & Travel Groups. Each year, more libraries, schools, colleges, hospitals, rehabilitation centers & individuals add The Complete Directory for People with Disabilities to their collections, making sure that this information is readily available to the families, individuals & professionals who can benefit most from the amazing wealth of resources catalogued here. Practice makes perfect in just 10 minutes a day! There is nothing more important than your child's education, but sometimes it's difficult to find the time to fit everything in. The 10 Minutes a Day series fits in around busy lives. Aimed at ages 5-7, Math covers a range of curriculum subjects, including addition and subtraction, 2D and 3D shapes, time, measurements, times tables, and lines of symmetry. Each exercise is simply and clearly introduced to help learning, and uses a variety of interesting methods to help learning, from filling in the gaps to matching exercises. For the eager student, there are extra "time filler" challenges on every page if they finish the questions within 10 minutes and want to continue practicing, or just want ideas for additional activities to do at home. Answers are provided, along with parents' notes that explain what your child learns from the exercise. Perfect both for the budding mathematician and those who need a little more support. 10 Minutes a Day: Math is a colorful and controlled approach to mastering math.

"Answers nearly all the questions that parents or clinicians might raise about fragile X syndrome... Can be recommended confidently as a thoroughly up-to-date, reliable, and informative account of the condition." -- Lancet

This is the most comprehensive directory of Programs, Services, Curriculum Materials, Professional Meetings & Resources, Camps, Newsletters and Support Groups for teachers, students and families concerned with learning disabilities. This edition is distinguished by its recognition by the National Center for Learning Disabilities, as well as a Glossary of Terms. This information-packed directory includes information about Associations & Organizations, Schools, Colleges & Testing Materials, Government Agencies, Legal Resources and much more. For quick, easy access to information, this directory contains three indexes: Entry Name

Index, Subject Index and Geographic Index. With every passing year, the field of learning disabilities attracts more attention and the network of caring, committed and knowledgeable professionals grows every day. This directory is an invaluable research tool for these parents, students and professionals.
