*Check Your Vocabulary workbooks are aimed at non-native speakers who want to build essential vocabulary and learn to speak fluent and natural-sounding English. For example, in English we use different words to describe different types of food when they go bad. We can describe meat as rotten, cheese as mouldy, milk as sour and butter as rancid - but we would not say sour meat, or rotten milk. Knowing how words are naturally used together is known as collocation. A good knowledge of these word combinations greatly improves the style of written and spoken language for non-native speakers. Knowledge of collocations is often tested in exams such as IELTS, TOEFL and TOEIC. Containing a range of word games, quizzes and exercises, this workbook will help intermediate learners to develop core language skills in a challenging, yet entertaining way.*

*Collocations are combinations of words which frequently appear together. Using them makes your English sound more natural. Presents and explains approximately 1,500 word combinations in typical contexts using tables, charts, short texts and dialogues.*

The untold story of the worst disaster on the Great Lakes in U.S. History. On July 24th, 1915 Chicago commuters were horrified as they watched the SS Eastland, a tourism boat taking passengers across Lake Michigan, flip over while tied to the dock and drown 835 passengers including 21 entire families. Rockefeller, Morgan, and Carnegie had bought into the ship business in the Midwest, creating a boom market and a demand for ships that were bigger, longer, faster. The pressure-filled and greedy climate that resulted would be directly responsible for the Eastland disaster and others. As dramatic as the disaster was, the subsequent trial was even more so.
