Nothing is more brilliant and juicy to me than a woman stepping fully into her self—mind, body, and spirit, full throttle, without apology. Kimberly Dark has been illuminating the path for a long time. This book is a triumph. This book is a jailbreak from cultural inscriptions meant to keep us locked up, shut up, and conforming. Lidia Yuknavitch, author of *The Chronology of Water* and *The Book of Joan* Fat, Pretty, and Soon to be Old is a moving, funny, and startlingly frank collection of personal essays about what it means to look a certain way. Or rather, certain ways. Navigating Kimberly Dark's experience of being fat since childhood—as well as queer, white-privileged, a gender-confirming girl with a pretty face, active then disabled, and inevitably aging—each piece blends storytelling and social analysis to deftly coax readers into a deeper understanding of how appearance privilege (and stigma) function in everyday life and how the architecture of this social world constrains us. At the same time, she provides a blueprint for how each of us can build a more just social world, one interaction at a time. Includes an afterword by Health at Every Size expert, Linda Bacon. Kimberly Dark is a writer, professor, and raconteur. She has written award-winning plays, and taught and performed for a wide range of audiences in various countries over the past two decades. She is the author of *The Daddies*, *Love and Errors*, and co-editor of the anthology *Ways of Being in Teaching*.

Reluctantly agreeing to her husband's request for a divorce after an unfortunate incident with a frying pan, Charlie Rhymer returns to her family home to find a less-than-serene atmosphere before encountering brooding actor Mace North. A first novel. 10,000 first printing.

One of America's leading brand strategists shares her step-by-step program for creating an unforgettable identity in today's marketplace. In short, you'll uncover a focused direction for your career that celebrates you. In the information age, brand marketing—the process by which a product creates an emotional connection with its audience and sets itself apart from the crowd—is more important than ever. Roffer knows that branding isn't just for big corporations or products like Nike, Coke, or Yahoo. She is not only a pioneer in this field, she has used brand marketing strategies to catapult her own career. In *Make a Name for Yourself* she shows you how you can brand your own unique traits and talents for career success and personal fulfillment. In a step-by-step program she covers:

- * Unearthing your authentic self to develop a brand that reflects your natural talents, abilities, and passions

Featuring advice, wisdom, and observations from an array of prominent and beloved women, *30 Things Every Woman Should Have and Should Know by the Time She's 30* is an essential guide (and perfect gift) for women on the brink of thirty--and for those who are already there! Fifteen years ago, *Glamour* published a list of distinctive yet universally true must-haves and must-knows for women on the cusp of and beyond the age of thirty titled, "30 Things Every Woman Should Have and Should Know by the Time She's 30." It became a phenomenon. Originally penned by *Glamour* columnist Pamela Redmond Satran, The List found a second life when women began to forward it to one another online, millions of times. It became a viral sensation, misattributed to everyone from Maya Angelou to Hillary Clinton--but there's only one original list, and it stands the test of time. Quirky and profound, The List defines the absolute must-haves (#11: "A set of screwdrivers, a cordless drill, and a black lace bra") and must-knows (#1: "How to fall in love without losing yourself") for grown-up female happiness. Now, *Glamour* magazine has gathered together its editors and an incredible group of notable women to expand on each of the items on The List in wise, thoughtful, and intimate essays. Kathy Griffin meditates on knowing when to try harder and when to walk away. Lisa Ling explores the idea that your childhood may not have been perfect, but it's over, and Lauren Conrad shares what she has learned about what she would and wouldn't do for money or love. Other personal insights come from Maya Angelou, Rachel Zoe, Taylor Swift, Katie Couric, Portia de Rossi, Kelly Corrigan, ZZ Packer, Bobbi Brown, Padma Lakshmi, Angie Harmon, and many more. Along with essays based on The List, writers share their feelings about what the milestone of turning thirty meant to them. *30 Things Every Woman Should Have and Should Know by the Time She's 30* is the one book women of all ages will turn to for timely and timeless wisdom.

This volume in the Belief series provides a new and interesting theological interpretation of Genesis through the themes of liberation and the concerns of the poor and marginalized. De La Torre wrestles with Genesis texts, remembering Jacob's wrestling at Peniel (Gen. 32:24-32), and finds that "there are consequences when we truly wrestle with the biblical text, struggling to see the face of God." This commentary provides theological and ethical insights that enables the book of Genesis to speak powerfully today.

In this volume, Mira Falardeau looks at the work of great women artists and their experiences in the industry to reveal advice and positive encouragement for future cartoonists. Heavily illustrated with cartoons and artwork from many of the best in the field, the book also asks serious questions about why there have been so few women cartoonists in the field of visual humor and if the digital age is opening more opportunities for female humorists. Falardeau is uniquely positioned to ask these questions. She has spent decades as an art historian, a specialist in visual humor, and the author of several books and essays on cartoonists and their history. She was also a former cartoonist herself—among the first generation of women in her field during the 1970s and 1980s. A History of Women Cartoonists is the first book to offer a truly global survey and

The Secrets to Finding, Nurturing—or Being—an Irresistible Man. Never before has the search for real connection between the sexes been more important—or more confusing. Single women want to know what they should ask for—not settle for—in a mate, while married women wonder how they can nurture godly character traits in their husbands. Men, both single and married, wonder what women really want. Both genders are long on questions and short on answers. Where Can Men and Women Go for Help? In Proverbs 31, Scripture presents a powerful composite of a virtuous woman. But what about the virtuous man—what does the Bible say about him? Popular Bible teacher Michelle McKinney Hammond tackles this timely and important question, digging into Scripture to study key men—from Adam to Christ himself, the ultimate bridegroom—to learn what God requires of husbands and men, and to lay out a trustworthy model of how men and women can live in healthy, fulfilling relationship. Find out what you can do to identify, nurture—or become—a truly godly man and mate in In Search of the Proverbs 31 Man. “This is not a man bashing book, but one that champions the original design for their lives. Women need real men.” –Michelle McKinney Hammond

Rape in marriage is a global problem affecting millions of women -- it is still legal in many countries and was only criminalized in all U.S. states in 1993. In much of the world, marital rape is too often understood as an oxymoron due to the fact that the ideology of permanent consent underlies the legal and cultural definitions of sex in marriage. From Vietnam to Guatemala to South Africa and beyond, this volume examines how cultural, legal, public health, and human rights policies and practices impact intimate partner violence. While legal and cultural conceptions of marital rape vary widely -- from criminal assault to wifely duty -- this volume offers evidence from different societies that forced sex undermines the physical and psychological well-being of the women who experience it, regardless of their cultural context. Globally, the nature of marriage is changing and so are notions of individual choice, love, intimacy, and rigid gender roles. Marital Rape documents wide ranging and fluid understandings of sex, consent, and rape in marriage; such an array of perspectives demands an international and interdisciplinary approach to the study of sex and gender-based violence. This text brings together an international group of scholars from the fields of anthropology, sociology, criminology, law, public health, and human rights; their work points to the importance of understanding the lived experience of sexual violence for the design of effective and culturally sensitive public policy and practice.

Charlotte—Charlie—Rhymer's husband wants a divorce. Charlie isn't sure what she wants, but after the incident with the frying pan, even she has to concede that their differences may be irreconcilable after all. Returning home to her native Yorkshire and the bosom of her family seemed like a good idea at the time. Even if Charlie's father has never quite forgiven Charlie or her siblings (Anne, Emily and Branwell) for failing to live up to their more literary (as in Bronte) namesakes. Upvale Parsonage, the family home to which Charlie has retreated, is presided over by her sister Em. Em's hobbies are composing inspirational verses, dabbling in the Ancient Black Arts, and fighting off the incursions of Father's latest mistress. When the current mistress actually moves in, family loyalties are sorely tried. Still, Charlie is determined to bounce back from disaster and strike a blow for deserted older wives everywhere. But when she meets brooding actor Mace North, she realizes that when it comes to dating for the over-forty crowd, female solidarity be damned—it's every woman for herself! Sure to delight both Bronte fans and readers who like a good laugh with their romance, Trisha Ashley's first book to be published in the United States is a welcome treat.

Drawing on the author's own experience as "the other woman" in an affair with an otherwise-committed man, this contemporary feminist study is the first to label the role of the two-timing male as "sexual terrorist."

"Enough about me," goes the old saying, "what about you? What do you think about me?" Hence the pursuit of attention is alive and well. Even the Oxford English Dictionary reveals a modern coinage to reflect the chase in our technological age: "ego-surfing"—searching the Internet for occurrences of your own name. What is the cause of this obsessive need for others' recognition? This useful and popular volume, now in a second edition that features major new introductory and concluding essays, entertainingly ponders this question. Derber argues that there is a general lack of social support in today's America, one which causes people to vie hungrily for attention, and he shows how individuals will often employ numerous techniques to turn the course of a conversation towards themselves. Illustrating this "conversational narcissism" with sample dialogues that will seem disturbingly familiar to all readers, this book analyzes the pursuit of attention in conversation—as well as in politics and celebrity culture—and demonstrates the ultimate importance of gender, class, and racial differences in competing for attention. Derber shows how changes in the economy and culture—such as the advent of the Internet—have intensified the rampant individualism and egotism of today. And finally, in a new afterword, he focuses on solutions: how to restructure the economy and culture to humanize ourselves and increase the capacity for community, empathy, and attention-giving.

If educational reform is to succeed, it must attend to the perspectives of students--those most directly affected by schooling but least often consulted about its efficacy. This is the premise of the first book both to feature student perspectives on school and to foreground student voices; middle and high school students are the primary authors of the eight chapters collected in this volume aptly titled In Our Own Words. Reflecting differences of gender, racial, and ethnic background, and school context, the student authors write passionately and eloquently about their experiences of and desires for school. Through their explorations of topics as diverse as bilingual education, class cutting, teacher bias, race relations in school, what girls need from their education, and innovative curricular models, these student authors not only counter stereotypes of apathetic teenagers but also clearly identify what hinders and what supports their learning. For both the insights offered and the freshness of the students' voices, this collection is a must read for anyone who has a stake in making school a place where students can and want to learn.

way we participate and behave, the laws we live by, and the challenges we face. Each chapter features real stories illustrating how the American political system is the product of strategies, calculations, and miscalculations of countless individuals. Students learn the nuts and bolts of political science through these compelling stories. Learning concepts in context is a tested learning technique that works to help ideas stick. The key concepts are memorable because they are tied to real politics, where students see political action and political choices shaping how institutions advance or impede the fulfillment of fundamental ideas. Not only will all students see themselves reflected in the pages, but they will come to understand that they, too, are strategic players in American politics, with voices that matter.

People come together in movements to end war from many political traditions. They are socialists, communists and anarchists, people of a variety of faiths, secularists, pacifists and feminists. They share a belief that peace is possible, but have divergent views on the causes of militarism and strategies to end it. As both peace activist and social researcher, Cynthia Cockburn is well placed to ask, 'How coherent and cohesive are we?' The book presents original case studies of anti-war, anti-militarist and peace movements in Japan, South Korea, Spain, Uganda and the UK, of international networks against military conscription and the proliferation of guns, and of singular campaigns addressing aggression against Palestinians and the expansion of NATO. The stand-alone chapters make ideal course readings. Scanning the political spectrum, but always with a gender lens, the author carefully uncovers the movements' many tensions and antagonisms, looking for the source of alliance that may make of these and a multitude of other groups, organizations and networks worldwide an unstoppable movement for change. Between the nihilist view that violence is inevitable and the utopian belief in the possibility of a violence-free world is an achievable goal of violence reduction, both in times of war and in times called peace. Violence is, much more often than we think, a choice.

The work of Simone de Beauvoir has endured and flowered in the last two decades, thanks primarily to the lasting influence of *The Second Sex* on the rise of academic discussions of gender, sexuality, and old age. Now, in this new Companion dedicated to her life and writings, an international assembly of prominent scholars, essayists, and leading interpreters reflect upon the range of Beauvoir's contribution to philosophy as one of the great authors, thinkers, and public intellectuals of the twentieth century. The Companion examines Beauvoir's rich intellectual life from a variety of

angles—including literary, historical, and anthropological perspectives—and situates her in relation to her forbears and contemporaries in the philosophical canon. Essays in each of four thematic sections reveal the breadth and acuity of her insight, from the significance of *The Second Sex* and her work on the metaphysics of gender to her plentiful contributions in ethics and political philosophy. Later chapters trace the relationship between Beauvoir's philosophical and literary work and open up her scholarship to global issues, questions of race, and the legacy of colonialism and sexism. The volume concludes by considering her impact on contemporary feminist thought writ large, and features pioneering work from a new generation of Beauvoir scholars. Ambitious and unprecedented in scope, *A Companion to Simone de Beauvoir* is an accessible and interdisciplinary resource for students, teachers, and researchers across the humanities and social sciences.

Daisy Buchanan The words 'girl power' conjure vivid memories of short skirts and platform boots. But it wasn't just about the look, it was about feminism. The Spice Girls gave a generation their first glimpse of the power of friendship, of staying true to yourself, of sheer bloody-mindedness. And the girl power generation went on to kick-start a new conversation around gender equality. We may have grown up asking What Would the Spice Girls Do?, but their particular brand of feminism is as relevant today as it was twenty years ago - we still need that fun and fearlessness, we still need accessible and all-embracing equality... we still need a zig-a-zig-ah. "The Spice Girls" arrival on the pop scene marked the gateway to a modern form of feminism, all dressed up as a riotously good time." Stylist As featured in Elle magazine's Best Feminist Gift Books
