Real estate investing can be very satisfying. It gives you the opportunity to work for yourself and independently make money on a consistent basis. It also gives you financial freedom and peace of mind, because you can work whenever you feel like it. You will never have to clock in or deal with office politics. You are not held responsible by your boss, because you are the boss. However, real estate does require work and the competition is fierce. Nowadays, with information so freely available on the internet and in books, many people do not want to climb the corporate ladder. And who blames them. No one feels like working 30-40 years for companies with only 3 weeks of paid time off, barely making enough money to live off, invest for your future and put a roof over you or your family's head. The new trend is to retire early and enjoy a somewhat stress free life. Real estate can truly fulfill this promise and just keep in mind...if you don't do it, then your next door neighbor will!

Whether you're looking to make a career out of flipping homes or see it as a part-time venture, you can make fast money legitimately. Before you get started, you need to know the right way to flip, regardless of local market conditions and current economic trends. There's more to flipping than redoing a kitchen or staging a property. Every deal is different, and each investor must have a clear business strategy. Expert investors William

Bronchick and Robert Dahlstrom have learned how to be successful in all types of markets—and now they share their secrets with you. From the bestselling authors of Flipping Properties, which brought the term "flipping" to American households, The Business of Flipping Homes is an A-to-Z guide for both new and seasoned investors. The book explains what flipping is and isn't, goes beyond the investment of a basic single-family home, and demonstrates how to find, renovate, and sell properties using proven methods. With more than 40 years combined experience in buying and selling investment properties, Bronchick and Dahlstrom explain how to avoid many of the pitfalls and issues that could drain your funds and come back to haunt you. They give systematic approaches on long-term planning, including how to find and work with partners, structure a business, and utilize your specific talents, resources, and aspirations in realistic ways. You'll learn how to figure out timelines, work with real-estate agents, understand the paperwork, analyze the numbers, utilize technology, and, most important, find the money. Virtual Wholesaling for Dummies is a straight forward guide, on how to make money by creatively investing in Real Estate using No-Money down strategies! Many others besides myself, have ventured into other markets way beyond the market we currently reside in and are operating a full fledged Real Estate business and gone on to turn them into prominent six and seven figure

businesses. The main purpose of this book is focused on how to build a successful operation wholesaling in different markets. The techniques and strategies in this book can be applied to all aspects of Real Estate investing. Upon the completion of this book, be prepared to take massive action on the principles taught so you too can start building an empire by creatively investing in Real Estate.

Every book is written with a certain reader in mind, and this book is no different: You may have some investments, but you're looking to develop a full-scale investment plan....You'd like to strengthen your portfolio....You want to evaluate your investment advisor's advice....You have a company-sponsored investment plan, like a 401(k), and you're looking to make some decisions or roll it over into a new plan....If one or more of these descriptions sound familiar, you've come to the right place.

Strategies for the Post-Boom Era

If done correctly and with the right system, flipping houses should be a million dollar a year business. After doing hundreds of deals, the nation's most highly sought after expert reveals his exact system to find, analyze, renovate and sell houses earning \$25,000 (or more) per deal. From construction worker to millionaire, Jerry not only shows you his comprehensive, step-by-step system to flip 40 deals (or more) per year in any market, regardless of expertise or experience, you will also learn how to: -Set up follow a step-by-step systematic approach to each aspect of the business -Beat the competition to the best deals -Consistently find deals each and every month -Accurately estimate repair costs on any deal in 15 minutes or less -Identify the ideal property and area to flip houses -Sell your properties in 30 days or less -Renovate a home with no delays even if you have no experience -Select the exact materials and the design to attract the ideal buyer -Organize and maintain a budget -Effectively find and manage the best subcontractors to do all the work -Determine the precise after-repair value (ARV) of any deal -Find unlimited sources of other people's money (OPM) to fund your deals -Put the system and team in place to leverage your time (remove yourself from the model) Finally a practical, easy to follow approach to flipping houses. With dozens of examples and case studies, you finally have the blueprint to make a

million dollars a year flipping houses...

Now in a newly updated second edition, this guide covers all the ins and outs of buying, renovating, and reselling distressed properties at big profits. Berges shows investors how to excel at every aspect of flipping, from finding great deals to analyzing property values, negotiating sales, and closing deals.

This guide provides an overview of the many components of the popular practice of flipping properties. Coverage spans the flipping process from start to finish—finding, buying, fixing up, and selling—and the variables needed to make all of those steps successful and profitable. Also included is coverage on negotiating, property inspections, mortgages, taxes, and working with contractors, brokers, and real estate agents. The book is perfect for responsible investors who want to flip houses the right way and steer clear of legal gray areas that get some investors into trouble.

Let's face it—fixing and flipping houses is sexy. Who doesn't love the idea of buying a rundown, mold-infested shack and transforming it into someone's dream home for massive profits? Reality TV shows make it look so easy. A little paint here, some new kitchen cabinets there, and presto! The house is sold for big bucks and everyone lives happily ever after. If only it were that simple. Fixing and flipping houses is a business. In order for a business to survive,

prosper, and grow, systems must be put in place. Fixing and Flipping Real Estate: Strategies for the Post-Boom Era is a book that breaks down the four essential components of a fix-and-flip business, giving you the building blocks to efficiently buy and sell 1 to 20 properties a month in today's post-boom era housing market. You'll learn about each of the boxes:

Acquisition—How to find and buy a profitable real estate deal. Rehabbing—How to systematically remodel a house and how not to underimprove, or overimprove, your property. Sales—How to sell your flip for the highest possible price in the shortest possible time. Raising Capital—How to get the capital you need to grow your business, including using other people's money, for your real estate deals without getting sued or going to jail. In the post-real estate boom era, fixing and flipping is again a solid business--especially in the "sand" states—Arizona, California, Nevada, Texas, and Florida, among others. It's also a good bet in states as diverse as North Carolina and Washington State. And with the real estate market projected to bottom out nationally in 2012 (this time for real), there are plenty of houses to be renovated and plenty of money to be made by the enterprising in all fifty states. This book shows real estate investors everything they need to know to get started fixing and reselling houses either as a substantial sideline

or a full-on business.

Buy bank-owned properties at fire-sale prices! Banks and lending institutions today own more than one million foreclosed properties, more are

in the foreclosure pipeline. Banks desperately want to get these properties off their balance sheets, but there aren't enough buyers. The result is a soft real estate market with prices investors and homeowners may not see again in their lifetime. In recent years many bargain-hunting investors and homebuyers made the mistake of trying to get foreclosure prices via short sales and pre-foreclosure-- before the bank reclaimed the property. They've been burned by endless delays and uncertainty of the messy foreclosure process. With bank-owned properties, that's over. You deal directly with a motivated seller—the bank—and get the foreclosure price without the hassles and complexity of a short sale or pre-foreclosure. This book shows you how to negotiate the best possible terms with the real estate owned (or REO) department of a bank or lender, including step-by-step instructions and no-nonsense advice on finding great deals, estimating fair market value, and closing the deal. You don't need a ton of cash, because REO investing at fire-sale prices is affordable for almost any investor or homebuyer. Provides detailed, step-based guidance on buying REO properties
