The Complete Book of Ford Mustang, 4th Edition details the development, technical specifications, and history of America's original pony car, now updated to cover cars through the 2021 model year.

In her attempts to juggle work and family life, Brigid Schulte has baked cakes until 2 a.m., frantically (but surreptitiously) sent important emails during school trips and then worked long into the night after her children were in bed. Realising she had become someone who constantly burst in late, trailing shoes and schoolbooks and

biscuit crumbs, she began to question, like so many of us, whether it is possible to be anything you want to be, have a family and still have time to breathe. So when Schulte met an eminent sociologist who studies time and he told her she enjoyed thirty hours of leisure each week, she thought her head was going to pop off. What followed was a trip down the rabbit hole of busy-ness, a journey to discover why so many of us find it near-impossible to press the 'pause' button on life and what got us here in the first place.

Overwhelmed maps the individual, historical, biological and societal stresses that have ripped working mothers' and fathers' leisure to shreds, and asks how it might be possible for us to put the pieces back together. Seeking insights, answers and inspiration, Schulte explores everything from the wiring of the brain and why workplaces are becoming increasingly demanding, to worldwide differences in family policy, how cultural norms shape our experiences at work, our unequal division of labour at home and why

In How to Rebuild and Modify Ford C4 and C6

Automatic Transmissions, author George Reid walks readers through the process step-by-step, from removing the transmission, to complete overhaul, to proper re-installation and road testing.

The fabulous success of Ford's Mustang in America inspired Ford's British and German branches to do likewise. The sporty coupe they created, the Ford Capri, was launched in 1969 as the first joint production of the

brand-new Ford of Europe. Billed as "The car you always promised yourself", the Capri was a signal success with almost 1.9 million made when production ended in 1987. Its rakish lines, keen pricing and broad power offerings gave the Capri wide appeal not only in Europe but also in America, which imported the Mark I and II versions from 1970 to 1977 for sale through Lincoln-Mercury dealers. The Mark III for Europe followed in 1978. No paper tigers, these classy coupes were formidable rally and racing cars as this book's illustrations reveal. A Capri insider, former Ford of Europe executive Karl Ludvigsen introduces the Capri saga and illuminates the many rare

Making Machu Picchu

Escort Performance

Journal of the Institute of the Motor Industry

1999 thru 2019

Speaking at a 1913 National Geographic Society gala, Hiram Bingham III, the

American explorer celebrated for finding the "lost city" of the Andes two years earlier, suggested that Machu Picchu "is an awful name, but it is well worth remembering." Millions of travelers have since followed Bingham's advice. When Bingham first encountered Machu Picchu, the site was an obscure ruin. Now designated a UNESCO World Heritage Site, Machu Picchu is the focus of Peru's tourism economy. Mark Rice's history of Machu Picchu in the

twentieth century—from its "discovery" to today's travel boom—reveals how Machu Picchu was transformed into both a global travel destination and a powerful symbol of the Peruvian nation. Rice shows how the growth of tourism at Machu Picchu swayed Peruvian leaders to celebrate Andean culture as compatible with their vision of a modernizing nation. Encompassing debates about nationalism, Indigenous peoples' experiences, and cultural policy—as

well as development and globalization—the book explores the contradictions and ironies of Machu Picchu's transformation. On a broader level, it calls attention to the importance of tourism in the creation of national identity in Peru and Latin America as a whole.

Assessment Methods in Statistical Education: An International Perspective provides a modern, international perspective on assessing students of statistics in higher education. It is a collection of contributions written by some of the leading figures in statistical education from around the world, drawing on their personal teaching experience and educational research. The book reflects the wide variety of disciplines, such as business, psychology and the health sciences, which include statistics teaching and assessment. The authors acknowledge the increasingly important role of technology in assessment, whether it be using the internet for accessing information and data sources or using software to construct and manage

individualised or online assessments. Key Features: Presents successful assessment strategies, striking a balance between formative and summative assessment, individual and group work, take-away assignments and supervised tests. Assesses statistical thinking by questioning students' ability to interpret and communicate the results of their analysis. Relates assessment to the real world by basing it on real data in an appropriate context. Provides a range of individualised assessment methods, including those that deter plagiarism and collusion by providing each student with a unique problem to solve or dataset to analyse. This book is essential reading for anyone involved in teaching statistics at tertiary level or
