

How To Carve Leather

Shows and explains figure and western floral leather carving (including lots of animals). Features over 60 patterns for billfolds, belts and more. 48 pages.

The allure of leather is once again gaining ground as small labels and brands produce functional pieces reflective of our lifestyles. A clear antithesis to disposable culture, well-crafted leather goods can and should last for decades. This book is a practical introduction to this ancient art form with 20 distinct projects to sink your awl into. From creating simple braids and key rings to belts, wallets, mobile phone cases and leather totes, one could literally outfit themselves from head to toe. Covers all the basics from gluing and polishing to using the specialized tools and sewing by hand. As the son of one of Swedens leading shoemakers, the author has a lifelong knowledge of working with leather and his knowledge and respect for the material shines through.

*Suppose, you have to appear for an exam next week, who would be the go-to person for seeking help and guidance? Option 1: A Subject Matter Expert (SME) who studying/teaching the subject for several years and often assumes while explaining that the basics are covered or looks it from their frame of reference. Or Option 2: Someone who also started from scratch as you have and passed the exam just last week. He/She knows the exact process, challenges, doubts, and roadblocks you may be facing and can think from your perspective. If your option is 2, you are in the right place. I am a Technology Consultant by profession, and started my leathercraft journey in the year 2014. I started by going through multiple YouTube videos, courses, Facebook groups, and finally completed my first project after four months. I was confused and was lost in the magnitude of information available online. I firmly believe that while starting, you need exact, necessary, minimalistic information to start your first project, pardon: Complete your first project! So I started writing this book to provide a minimalistic approach to information required to start your first leather project. It covers: - History of leather - Basics Tools and their usage - Making Patterns - Cutting Patterns - Gluing - Beveling, Embossing, Stamping - Stitching basics - Coloring and Finishing - Tips, Techniques for the beginner -Leather Crafting, Physical Pain & Ergonomics * (New Chapter added!) - Appendix: List of online resources available for free patterns, tips, and techniques. I still remember the initial doubts I had and the tips which helped me. This book is for people who are in their first lap (0-3 years) of Leather crafting journey and want to have a holistic idea of processes, tools, and need help in their initial projects. I have included photographs of realistic projects of beginners explaining the process and standard operating procedure while starting. So, what are you waiting for? Get this updated edition of the book with 22 chapters and start your Leather Crafting Journey*

Today!!

Do you find yourself drawn to wooden art carved with knives and wishing that you can create all the amazing projects you see each day? Do you want a step by step guide on how to get started with whittling to carve out awesome projects in no time? If so, then read on... Have you ever picked up a piece of wood and had that sudden moment where it is as though your mind opened up and you had a rush of inspiration on how to turn that wooden piece into something beautiful? If you have had these feelings, or you are simply interested in wood carving but do not know where to start, there's good news for you. Wood carving can sometimes seem overwhelming. With all the hardware required, maneuvering of wood and high skills deployed to create amazing artworks out of wood, it can sometimes look like a too daunting task for you to approach. But what if there was a way for you to satisfy your desire to create stunning pieces out of wood without having to go through the long and tedious process of cutting, drilling holes, and fighting with heavy machinery? The way around this would be to get started with whittling. Although not as elaborate as full-blown wood carving, whittling is a process of creating amazing artworks and utilities out of wood, with the aid of smaller tools that are easily obtainable. This implies that with some patience, attention to detail, a whittling knife, and some time, you will be able to create simple woodwork that is both beautiful and useful to you. This book throws more light into the subject of wood whittling. As an ancient practice dating back to a very long time ago, whittling has evolved, and there is so much more that you can achieve with just your whittling knife and all the factors that have been mentioned above. Within the pages of this book you will;

- 1. Gain a better understanding of what whittling is all about and how it evolved.*
- 2. Understand the therapeutic benefits of engaging in the art of whittling.*
- 3. Be familiar with the tools you need to have a successful whittling project and how these tools are handled for the best results.*
- 4. Gain insider secrets on the tips and tricks of executing successful whittling projects.*
- 5. Be exposed to 20 whittling ideas that will help bring out your artistic and creative side to life.*
- 6. Be privy to some of the most frequently asked whittling questions that will provide you with a deeper insight and further guidance into the art of wood carving with knives. ...And a whole lot more! This book offers a crash course for beginners into the art of whittling. Even if you had no idea of the craft, by the time you are done with the knowledge within these pages, you should be up and ready to complete your first whittling project. It is not that difficult to create all those amazing woodwork you have wanted to create all this while with knives. With the knowledge hidden in this book, you are well covered. To access the wealth of knowledge in this book, simply get your copy RIGH NOW*

Take an exciting journey into printing with custom-carved stamps! In this complete stamp-carving workshop, Julie Fei-Fan Balzer covers every aspect of creating and using rubber stamps, including carving linear and curved designs, alphabets, complex and repeating geometrical shapes, and image transfers. After carving your own unique stamps, you'll also learn: • How to combine and layer stamps into original designs. • How to design stamps that work together as well as individually. • How to create stamps that combine with or enhance other stamps (hand carved or commercial). • And how to create complex, layered effects that resemble screen printing. This book also includes simple projects that explore various applications for stamping, including printing on different surfaces such as fabric, leather, paper, and canvas. Find your "authentic" design voice and get carving today!

Al Stohlman's teaches the art of silhouette and inverted leather carving, as well as, the

fundamentals of rough out carving.

Now Lora Irish, the author of the bestselling Great Book of Woodburning, offers thirty-five amazingly detailed new projects that explore the craft of pyrography across the full range of inventive pyro media.

HOLSTERS have played, and are still playing, a very important part in the history of man. And, since the making and manufacture of the first hand guns, methods for concealing, easier handling and carrying of these weapons have been devised. Trial and error being the surest way of improvement, holster making has now advanced to fill almost every need and requirement of the pistol user. Today, with the hundreds of Makes, Models, and barrel lengths of hand guns, it would be virtually impossible to reproduce holster patterns for each and every one into book form. The Holster Patterns presented in this book are a cross-section of a few of the most popular Makes and Models of the guns in use today; with alternate designs and added barrel lengths as space permits. Most of the Carving Designs presented can be altered for shorter, longer, or odd barrel lengths by adding or omitting a leaf, scroll, etc. The designs can also be used on similar holster patterns for other guns by “stretching” or “squeezing” the flowers, leaves, etc., to fit the confines of the border lines. With a little Imagination and Ingenuity, the Carving Designs in this book can be used on hundreds of holster patterns. Remember... the patterns shown will also fit many other similar makes and models of guns ... too numerous to mention. The purpose of this book is to assist and instruct the craftsman in various methods of Holster Construction and Holster Pattern Making. Each phase is shown with clearly defined step-by-step photos and drawings. It is hoped that this book will aid the Self Taught Student, Instructor, and Professional Craftsman alike to further their knowledge of “How To Make Holsters” for Profit, Personal Satisfaction and Fun! A “special” thanks to my wife, Terry, who has devoted countless hours and painstaking effort to produce all of the photographs appearing in this book. Many thanks to Ralph Tiner . . . Sporting Goods Center, Hemet, Calif. ... for his willing cooperation in supplying guns and information. Thanks to Lee Kelly, U. S. Forestry Service, and many other friends who have given unselfishly of their time and assistance. To the Leathercraftsman: Thanks for your patience in awaiting the first publication of “How To Make Holsters” .. . Many Happy Hours!

Sincerely, Al Stohlman

Leather Tooling and Carving

It is easy to imagine Edith and Rudy Mudra looking at the letter again. Could it be true? Five hundred dollars, it seemed like a fortune in 1933. At age 54, Rudy was laid off from Otto F. Ernst Inc. saddlery in Sheridan, Wyoming. With the Great Depression underway, they were camping in the Big Horn Mountains since they didn't have money for rent. Lucky it was summer. It started in the 1920s. Leather workers were out of work everywhere. Throughout the 1920s, ranching and agricultural industries were struggling economically. The change from a horse power society to a machine powered society devastated the harness and saddle industry. Rudy and Edith had followed leather carving and saddlemaking job offers from Miles City, Montana to Billings, Montana and then to Sheridan, Wyoming. The job at Otto F. Ernst Inc. saddlery looked secure with Sheridan's numerous dude ranches. But in two years, the Depression hit Otto F. Ernst Inc. saddlery and Rudy was let go. It is easy to think that when Edith drove down the steep mountain road to Sheridan yesterday, Rudy hoped there would be a check in the mail from Connolly Saddlery in Billings for the leather belts he had carved earlier this month. Maybe it would cover groceries. After she left, it is likely that he laid his leather carving tools out on the picnic table and began to carve wild roses into scraps of leather for a billfold. But the letter from a lawyer in Minnesota stated that Edith's distant relative had left her a small inheritance in his will. It seemed unreal. Just when things were so grim. With no job, no money, no home, it must have appeared to be a fortune to master saddlemaker, Rudy, and his talented wife, Edith. What they did with the \$500 was a statement of faith in Rudy's talent. Rudy Mudra was talented and fun loving. He wove his way through the remarkable changes to saddlemaking that occurred between 1879 and 1966. As the world changed from a horse powered to a machine powered society, he followed saddlemaking work through some of the most famous shops in the west; Buckstaffs, Askews, Miles City Saddlery, Frustnows, Connollys, Ernest and finally owned his own shop, Rudy Mudra's Saddle Shop in Sheridan, Wyoming. This is the story of the remarkable life lived by an extraordinarily talented man.

This book shows how to make 40 bags and miscellaneous goods with very simple, clear-cut instructions that even total beginners can follow. What makes this book special is that it has patterns with stitch marks at the end of the book. Leather is usually sewn after piercing holes for stitching, which means that punching the holes is the most important part. If the number of holes and their stitching positions match, all that is left to do is sew the item together along the holes. Tanned leather gradually softens. In this book, since thick leather is used and linings are not, the shape of your bag may change depending on age and use. This is actually one of the wonders of aged, tanned leather, that you will enjoy.

Eighty pages of Al Stohlman's imaginative and creative designs. Perfect for beginners and experts alike, it includes 30 projects.

A treasury of classic wood patterns and techniques for creative woodworking embellishment. Woodcarving artist Lora Irish gives carvers, woodburners and painters a wide variety of designs they can transfer directly to projects or use to develop ideas of their own. Themes include natural patterns such as grapes, oak leaves and acorns, animals like lions and eagles, and intricate floral and fantasy designs. 180 drawings.
