

I Have More Souls Than One Penguin Modern

"In his diaries, the American philosopher and psychologist William James, for whom the personal and the philosophical were never far apart, recounted how in his late twenties he was confronted with existential despair regarding the issue of free will: do humans have the capacity to act freely and meaningfully? James famously decided that his "first act of free will is to believe in free will," and declared that, "if you can change your mind, you can change your life." This belief in the efficacy of ideas on our practical beliefs and actions would lead to James becoming one of the founders of the first truly distinctively American philosophy, Pragmatism. In this book philosopher John Kaag offers an account of the life, thought, and relevance of James's philosophy for today. He argues that his brand of pragmatism was first and foremost a philosophy geared towards saving a life; namely, James's own, but with important resources and lessons for saving ours as well. James believed that philosophy was meant to articulate, and help answer, a single existential question, one which lent itself to the title of one of his most famous essays: "Is life worth living?" Through examination of an array of existentially loaded topics covered in his works—truth, God, evil, suffering, death, and the meaning of life—James concluded that it is up to us to make life worth living. He said that our beliefs, the truths that guide our lives, matter—their value and veracity turn on the way they play out practically for ourselves and our communities. For James, philosophy was about making life meaningful, and for some of us, liveable. This is the core of his "pragmatic maxim," that truth should be judged on the bases of its practical consequences. Kaag shows how James put this maxim into use in his philosophy and his life and how we can do so in our own. In his perhaps most famous and enduring work, *The Varieties of Religious Experience*, James devoted two chapters to exploring what he saw as two distinct types of personality, "the sick-souled" and "the healthy-minded." James himself, as Kaag shows, tended more toward the sick-souled side of the spectrum. But both types fascinated James and he thought both provided important sources for understanding not just religious experience, but for how we can think about our own orientation to the world and perhaps reorient ourselves in the process"--

But no, she's abstract, is a bird, Of sound in the air of air soaring, And her soul sings unencumbered, Because the song's what makes her sing.' Dramatic, lyrical and ranging over four distinct personae, these poems by one of Portugal's greatest poets trace a mind shaken by intense suffering and a tireless search for meaning.

After a week of hearing ghostly noises, a man is visited in his home by the spirit of his mother, dead for three decades. She reproaches him for his dissolute life and begs him to have Masses said in her name. Then she lays her hand on his sleeve, leaving an indelible burn mark, and departs... A Lutheran minister, no believer in Purgatory, is the puzzled recipient of repeated visitations from "demons" who come to him seeking prayer, consolation, and refuge in his little German church. But pity for the poor spirits overcomes the man's skepticism, and he marvels at what kind of departed souls could belong to Christ and yet suffer still... Hungry Souls recounts these stories and many others trustworthy, Church-verified accounts of earthly visitations from the dead in Purgatory. Accompanying these accounts are images from the "Museum of Purgatory" in Rome, which contains relics of encounters with the Holy Souls, including numerous evidences of hand prints burned

into clothing and books; burn marks that cannot be explained by natural means or duplicated by artificial ones. Riveting!

"A scorching memoir of a love affair with an addict, weaving personal reckoning with psychology and history to understand the nature of addiction, codependency, and our appetite for obsessive love. "The disease he has is addiction," Nina Renata Aron writes of her boyfriend, K. "The disease I have is loving him." Their love affair is dramatic, urgent, overwhelming—an intoxicating antidote to the long, lonely days of early motherhood. Soon after they get together, K starts using again, and years of relapses and broken promises follow. Even as his addiction deepens, she stays, convinced she is the one who can get him sober. After an adolescence marred by family trauma and addiction, Nina can't help but feel responsible for those suffering around her. How can she break this pattern? If she leaves K, has she failed him? Writing in prose at once unflinching and acrobatic, Aron delivers a piercing memoir of romance and addiction, drawing on intimate anecdotes as well as academic research to crack open the long-feminized and overlooked phenomenon of codependency. She shifts between visceral, ferocious accounts of her affair with K and introspective analyses of the part she plays in his addictions, as well as defining moments in the history of codependency, from the temperance movement to the formation of Al-Anon to more recent research in the psychology of addiction. Good Morning, Destroyer of Men's Souls is a blazing, bighearted book that illuminates and adds nuance to the messy tethers between femininity, enabling, and love"--

A riveting firsthand account of one man's mission to investigate and document some of the most astonishing phenomena of our time—children who speak of past life memory and reincarnation. All across the globe, small children spontaneously speak of previous lives, beg to be taken "home," pine for mothers and husbands and mistresses from another life, and know things that there seems to be no normal way for them to know. From the moment these children can talk, they speak of people and events from the past—not vague stories of centuries ago, but details of specific, identifiable individuals who may have died just months, weeks, or even hours before the birth of the child in question. For thirty-seven years, Dr. Ian Stevenson has traveled the world from Lebanon to suburban Virginia investigating and documenting more than two thousand of these past life memory cases. Now, his essentially unknown work is being brought to the mainstream by Tom Shroder, the first journalist to have the privilege of accompanying Dr. Stevenson in his fieldwork. Shroder follows Stevenson into the lives of children and families

touched by this phenomenon, changing from skeptic to believer as he comes face-to-face with concrete evidence he cannot discount in this spellbinding and true story.

It is voices such as these, souls whose direction is clear and sure, free of stubble and full of light, that help the rest of us find our way through all the distractions of life, all of its illusions, beyond its mirages, around its empty enchantments. . . . Good reading, good thinking, good living is what this book brings to the soul. -- Joan D. Chittister from the introduction "Between Two Souls" presents a lovely, spiritually uplifting conversation in poetry between a gifted modern-day Roman Catholic nun and a nineteenth-century Zen monk. Offering an utterly unique entree into spiritual contemplation, this book pairs inspirational writing from two distinct but mutually enriching faith traditions, revealing the religious joy, wisdom, and all-embracing compassion that transcend temporal, cultural, and theological differences. Ryōkan (1758-1831) is one of Japan's most-loved and most-renowned poets. After formal training at the Zen monastery of Entsu-ji, he refused offers to head his own temple and instead lived as a wandering monk in the snowy country around Mt. Kugami. Ryōkan wrote thousands of poems during his travels but never published a collection himself. For two years Mary Lou Kownacki, a Benedictine nun, used Ryōkan's poetry for devotions. Each morning she would read one of his poems, meditate on it, and then respond with one of her own. "Between Two Souls" is the result of this poetic interplay. Over the course of these pages, Kownacki and Ryōkan's separate voices blend and become one, ultimately drawing the reader into their soulful dialogue on the eternal. Like echoes across time, these beautiful poems bring new depth and insight to truths that mark the meaning of the ages. Along the way they consider the smallest things in life, using them to gently warn us not to miss the bigger truths found in each moment, not to squander our souls. Complemented with an inspiring introduction by Joan D. Chittister and elegant calligraphy by Eri Takase, this volume provides a lifetime of devotional insights. Listening quietly to these two great souls is sure to enrich your own.

By one of the most important voices in contemporary world literature, a darkly comic novel about that most British of institutions, Oxford University. In All Souls, a visiting Spanish lecturer, viewing Oxford through a prismatic detachment, is alternately amused, puzzled, delighted, and disgusted by its vagaries of human vanity. A bit lonely, not always able to see his charming but very married mistress, he casts about for activity; he barely has to teach. Yet so much goes into simply "being" at Oxford: friendship, opinion-mongering, one-upmanship, finicky exchanges of favors, gossip, adultery, book-collecting, back-patting, backstabbing. Mar í as demonstrates a sweet tooth for eccentricity in this sly campus novel and love story.

From New England aquarium tanks to the reefs of French Polynesia and the Gulf of Mexico, she has befriended octopuses with strikingly different personalities—gentle Athena, assertive Octavia, curious Kali, and joyful Karma. Each creature shows her cleverness in myriad ways: escaping enclosures like an orangutan; jetting water to bounce balls; and endlessly tricking companions with multiple "sleights of hand" to get food. Scientists have only recently accepted the intelligence of dogs, birds, and chimpanzees but now are watching octopuses solve problems and are trying to decipher the meaning of the animal's color-changing techniques. With her "joyful passion for these intelligent and fascinating creatures" (Library Journal Editors' Spring Pick), Montgomery chronicles the growing appreciation of this mollusk as she tells a unique love story.
