*When Germany was defeated in 1945, both the Russians and the Americans undertook mass internments in the territories they occupied. The Americans called their approach "automatic arrest." Carl Schmitt, although not belonging in the circles subject to automatic arrest, was held in one of these camps in the years 1945-6 and then, in March 1947, in the prison of the international tribunal in Nuremberg, as witness and "possible defendant." A formal charge was never brought against him. Schmitt's way of coping throughout the years of isolation was to write this book. In *Ex Captivitate Salus, or Deliverance from Captivity*, Schmitt considers a range of issues relating to history and political theory as well as recent events, including the Nazi defeat and the newly emerging Cold War. Schmitt often urged his readers to view the book as though it were a series of letters personally directed to each one of them. Hence there is a decidedly personal dimension to the text, as Schmitt expresses his thoughts on his own career trajectory with some pathos, while at the same time emphasising that "this is not romantic or heroic prison literature." This reflective work sheds new light on Schmitt's thought and personal situation at the beginning of a period of exile from public life that only ended with his death in 1985. It will be of great value to the many students and scholars in political theory and law who continue to study and appreciate this seminal theorist of the twentieth century.*

"Places do not belong to us. We belong to them." The child of South Asian migrants, Kazim Ali was born in London, lived as a child in the cities and small towns of Manitoba, and made a life in the United States. As a man passing through disparate homes, he has never felt he belonged to a place. And yet, one day, the celebrated poet and essayist finds himself thinking of the boreal forests and lush waterways of Jenpeg, a community thrown up around the building of a hydroelectric dam on the Nelson River, where he once lived for several years as a child. Does the town still exist, he wonders? Is the dam still operational? When Ali goes searching, however, he finds not news of Jenpeg, but of the local Pimicikamak community. Facing environmental destruction and broken promises from the Canadian government, they have evicted Manitoba's electric utility from the dam on Cross Lake. In a place where water is an integral part of social and cultural life, the community demands accountability for the harm that the utility has caused. Troubled, Ali returns north, looking to understand his place in this story and eager to listen. Over the course of a week, he participates in community life, speaks with Elders and community members, and learns about the politics of the dam from Chief Cathy Merrick. He drinks tea with activists, eats corned beef hash with the Chief, and learns about the history of the dam, built on land that was never ceded, and Jenpeg, a town that now exists mostly in his memory. In building relationships with his former neighbors, Ali explores questions of land and power?and in remembering a lost connection to this place, finally finds a home he might belong to.

In 1906, sixteen-year-old Mattie, determined to attend college and be a writer against the wishes of her father and fiance, takes a job at a summer inn where she discovers the truth about the death of a guest. Based on a true story.
