Considered by many to be Lithuania's most important work of modernist fiction, this novel tells the story of Antanas Garsva, an emigre poet working as an elevator operator in a large New York hotel in the 1950s.

A deepening understanding of the importance of climate change has caused a recent and rapid increase in the number of climate change or climate-related laws. Trends in Climate Change Legislation offers an astute analysis of the political, institutional and economic factors that have motivated this surge, placing it into context.

This Palgrave Pivot employs the concept of open source agriculture as a new social movement, which not only advocates a specific agenda but also creates technological products under a unique technology development model. The book brings together social movement and technology theory to examine it through two in-depth case studies of open source agricultural communities. This allows for the tracing of values and interests coded within the technological artefacts the communities produce, as well as their

development processes. Critical theory of technology is further applied to examine the broader political economy of the development model.

The lord of snark, Lawrence Dorfman, is back! With this treasury of backhanded compliments, sarcastic insults, and catty comebacks, Dorfman gives us transformative wisdom that's sure to change your life—or at least induce a light chuckle. One question plagues us all: How do we survive all the Sturm und Drang of everyday life? The answer is but one word: snark. "She wears her clothes as if they were thrown on by a pitchfork." —Jonathan Swift "Why don't you get a haircut? You look like a chrysanthemum." —P. G. Wodehouse "He's a mental midget with the IQ of a fence post." —Tom Waits "They hardly make 'em like him anymore—but just to be on the safe side, he should be castrated anyway." —Hunter S. Thompson "He has a Teflon brain . . . nothing sticks"
—Lily Tomlin "He has no more backbone

than a chocolate éclair.” —Theodore Roosevelt Snark will keep the wolves at bay (or at least out on the porch). Snark, much like a double scotch, will help you deal with relatives, shopping, and rudeness; it is an outlet for the unleashed vitriolic bile that’s saved itself up over the months. Like a shield, it will protect you while you go about your life. Snark is your answer!

“FEW PEOPLE think of life as a creative experiment. Most of us are so busy with routines that we take life for granted. We expect an endless routine of work, a hectic social life each weekend and two weeks’ vacation each year. I trust that the readers of this book will derive from it a new interest in life, a zest for doing what needs to be done, and a technique to live with joyous enthusiasm. “Looking at life from an inspired viewpoint you can see those things which are on the side of greatness and cease resisting the petty and the unimportant. Life is a process of intelligence. It always acts intelligently. Problems are the result of living life unintelligently. “The universe is actually a mental system. Its primary nature is the

process of ideas becoming form. Every fact in your world is also an idea in your mind. To get new things in your world you must have new ideas in your consciousness. Few people do enough abstract thinking to create new ideas in their minds. They continually think about what they already know and have known for years. This explains the monotony of their lives. "Select the idea of some new experience you want and then think it without ceasing. Mind will deliver to you everything you need in order to accomplish your demonstration. This is far from being impossible. The great, the wise, and the true have proven this to be so. You have done it and so have your friends. You may not have thought of the process as being either spiritual or psychological. You intuitively knew a new idea. Your thinking in terms of this idea caused something to happen in your experience. "This book has been written for that large section of today's population which is spiritually liberal and psychologically aware. Those bound by traditional beliefs will cast it aside. It is my desire that thousands will be helped and healed by reading these pages."—Raymond Charles Barker ABC's, First Words, Numbers and Shapes, Colors and Opposites including a special note to parents. Afrikan life into the coming millennia is imperiled by

White and Asian power. True power must nest in the ownership of the real estate wherever Afrikan people dwell. Economic destiny determines biological destiny. 'Blueprint for Black Power' details a master plan for the power revolution necessary for Black survival in the 21st century. White treatment of Afrikan Americans, despite myriad of theories explaining White behavior, ultimately rests on the fact that they can. They possess the power to do so. Such a power differential must be neutralized if Blacks are to prosper in the 21st century ... Aptly titled 'Blueprint for Black Power' stops not at critique but prescribes radical, practical theories, frameworks and approaches for true power. It gives a biting look into Black potentiality. Autobiografie in de vorm van een reeks essays van de Canadese filmmaker Bruce LaBruce. LaBruce stelt dat homoseksualiteit een afwijking is, maar dat homoseksuelen er daarom juist prat op moeten gaan in plaats van te zoeken naar acceptatie door de hoofdmoot. There is probably no stranger nor more controversial book that Jane Sherwood's report, through automatic writing, of the identity of a communicator from the other side of the grave who chose to call himself 'Scott'. After many years of enforced silence, as a result of a solemn promise given to Scott, Jane Sherwood reveals his true identity, namely, Colonel T. E. Lawrence (Lawrence of Arabia). Post-Mortem Journal opens at the moment of Lawrence's death when he finds himself lying at the roadside by his shattered motorbike, unaware that he

actually 'dead'. It continues over the years and shows the development and salvation of a tortured and guilty man who, for the first time, is forced into admitting his weaknesses and vanities during his earthly life and is now able to come to terms with himself. Such revelations are both harrowing and magnificent. 'As to the validity,' says Jane Sherwood, 'of the information contained in "Scott's" journal I can only vouch for my own honesty; what I have received is here set down without additional modification. The readers must judge of its probability themselves.'

Social Work in Europe

Moving Beyond the 'Green Economy'

Post-Mortem Journal Communications from Lawrence of Arabia Through the Mediumship of Jane Sherwood

10th Edition

It is an acknowledged if not accepted fact that all European societies are being fundamentally transformed, and indeed perceptively unsettled, by increased migrations across nations and by the asserted presence of established minorities within their borders. The scale and speed at which these transformations have taken place have brought in their wake considerable social impacts and no small measure of fear and anxiety. Encounters with such diversity are part and parcel of the social work task, and learning how to negotiate them should be a de facto aspect of the training and continuous professional development of social workers and other social professions. However, the moral and political dimensions of the role, scope and nature of the social work task in

responding appropriately to these changed and changing realities are rather more contested. This volume addresses many dimensions of the response to issues of race and ethnicity in social work practice in Europe. It extends the debates on inter-cultural and race equality practice in social work through a stimulating and innovative collection of contributions. This book was originally published as a special issue of the European Journal of Social Work.

Jean-Jacques Sempe's witty drawings and keen eye for the finer points of the human condition have delighted readers in France and beyond for over forty years. Now, his sharply observed and beautifully drawn cartoons are available in English for the first time. 'Nothing is Simple' is classic Sempe - a timeless mix of tender moments and absurd situations. Sempe's world is populated by nosy neighbours, mischievous schoolboys and thwarted lovers, by snooty holidaymakers and crowds of frustrated commuters in the big city. Sempe's inimitable drawings are as fresh, engaging and funny today as when they were first published in 1962. The captions were translated by Anthea Bell, who also helped to bring Asterix the Gaul to the English-speaking world.
