**THE NEW YORK TIMES BESTSELLER** I once began a list of the contradictory notions I hold: Look before you leap. He who hesitates is lost. Two heads are better than one. If you want something done right, do it yourself. Nothing ventured, nothing gained. Better safe than sorry. Out of sight, out of mind. Absence makes the heart grow fonder. You can't tell a book by its cover. Clothes make the man. Many hands make light work. Too many cooks spoil the broth. You can't teach an old dog new tricks. It's never too late to learn. Never sweat the small stuff. God is in the details. And so on. The list goes on forever. Once I got so caught up in this kind of thinking that I wore two buttons on my smock when I was teaching art. One said, "Trust me, I'm a teacher." The other replied, "Question Authority." [signature] Fulghum

Explores the mysteries of love in a collection of real-life love stories that illuminates the many faces of love

**#1 NEW YORK TIMES BESTSELLER** • A timely and important book that challenges everything we think we know about cultivating true belonging in our communities, organizations, and culture, from the **#1** bestselling author of Rising Strong, Daring Greatly, and The Gifts of Imperfection Look for Brené Brown’s new podcast, Dare to Lead, as well as her ongoing podcast Unlocking Us! REESE’S BOOK CLUB PICK “True belonging doesn’t require us to change who we are. It requires us to be who we are.”

Social scientist Brené Brown, PhD, MSW, has sparked a global conversation about the experiences that bring meaning to our lives—experiences of courage, vulnerability, love, belonging, shame, and empathy. In Braving the Wilderness, Brown redefines what it means to truly belong in an age of increased polarization. With her trademark mix of research, storytelling, and honesty, Brown will again change the cultural conversation while mapping a clear path to true belonging. Brown argues that we’re experiencing a spiritual crisis of disconnection, and introduces four practices of true belonging that challenge everything we believe about ourselves and each other. She writes, “True belonging requires us to believe in and belong to ourselves so fully that we can find sacredness both in being a part of something and in standing alone when necessary. But in a culture that’s rife with perfectionism and pleasing, and with the erosion of civility, it’s easy to stay quiet, hide in our ideological bunkers, or fit in rather than show up as our true selves and brave the wilderness of uncertainty and criticism. But true belonging is not something we negotiate or accomplish with others; it’s a daily practice that demands integrity and authenticity. It’s a personal commitment that we carry in our hearts.” Brown offers us the clarity and courage we need to find our way back to ourselves and to each other. And that path cuts right through the wilderness. Brown writes, “The wilderness is an untamed, unpredictable place of solitude and searching. It is a place as dangerous as it is breathtaking, a place as sought after as it is feared. But it turns out to be the place of true belonging, and it’s the bravest and most sacred place you will ever stand.”

From Beginning to End

**FROM BEGINNING TO END** Why "rituals"? My thinking was set in motion by those who, knowing I was a parish minister for many years, have asked me for advice about ceremonies and celebrations. They wanted words to use at graduations, funerals, and the welcoming of children. They inquired about grace at family meals, the reaffirmation of wedding vows, and ways to heal wounds suffered in personal conflict. People requested help with the rituals of solitude, such as meditation, prayer, and contemplation. . . . Rituals do not always involve words, occasions, officials, or an audience. Rituals are often silent, solitary, and self-contained. The most powerful rites of passage are reflective—when you look back on your life again and again, paying attention to the rivers you have crossed and the gates you have opened and walked on through, the thresholds you have passed over. I see ritual when people sit together silently by an open fire. Remembering. As human beings have remembered for thousands and thousands of years. FULGHUM

**What if who you are right now is exactly who God meant you to be? What if the weirdest, most annoying things about you are actually—for a purpose? Often we lament about how we relate to God and to the world. We over-think things, worry too much, put things off, argue too much, talk too much, or any number of other griefs. We fight who we are and beg God to make us different. But what if our greatest strength, biggest gift, and most potential is hidden in the very thing we seek to hide from the rest of the world: our weirdness? In Why Your Weirdness Is Wonderful, author and certified life coach Laurie Wallin reveals strategies for anyone struggling to find a calling or to find and live their dream. It teaches us to stop fighting ourselves and start following God, not just in spite of, but by embracing our "weirdness."**

**These ten principles were first articulated by Kent Keith as a student at Harvard in the 1960s. Since then, unbeknownst to him, they were quoted, circulated, and appropriated by countless people around the world and back again. They even served as a source of inspiration for Mother Teresa. Now, here are his commandments, the philosophy behind them, and the stories that bring them to life. The first five Paradoxical Commandments: People are illogical, unreasonable, and self-centered. Love them anyway. If you do good, people will accuse you of selfish ulterior motives. Do good anyway. If you are successful, you will win false friends and true enemies. Succeed anyway. The good you do today will be forgotten tomorrow. Do good anyway. Honesty and frankness make you vulnerable. Be honest and frank anyway.**

In her acclaimed New York Times bestseller, Motherless Daughters, Hope Edelman explored the profound and lasting effects of mother loss, as well as her own search for healing. Now, in her compelling new work, Edelman explores another complex, life-changing relationship, the intricate bond between generations. Drawing from her own experience and the recollections of over seventy other granddaughters, Edelman explores

the three-generation triangle from which women develop their female identities: the grandmother-mother-daughter relationship. With eloquent personal testimony, she demonstrates the vital roles grandmothers have played in their granddaughters' lives, as a source of unconditional love, family values and traditions, and backup parent, the ultimate safety net. Here are grandmothers in all their glory: The "Benevolent Manipulator," whose love for her family is matched only by her desire for control: The "Gentle Giant", awesome, respected, who possesses a quiet, behind-the-scenes power: The "Autocrat", who rules her extended family like a despot: The "Kinkeeper", the family hub, who offers a sense of cohesion to the extended clan. With insight and compassion, Edelman probes this unique and emotionally-charged relationship in a book

that is a true celebration of an extraordinary bond—and a must read for every woman.

This I Believe II

All I Really Need to Know I Learned in Kindergarten

From the author to the reader: Show-and-Tell was the very best part of school for me, both as a student and as a teacher. As a kid, I put more into getting ready for my turn to present than I put into the rest of my homework. Show-and-Tell was real in a way that much of what I learned in school was not. It was education that came out of my life experience. As a teacher, I was always surprised by what I learned from these amateur hours. A kid I was sure I knew well would reach down into a paper bag he carried and fish out some odd-shaped treasure and attach meaning to it beyond my most extravagant expectation. Again and again I learned that what I thought was only true for me . . . only valued by me . . . only cared about by me . . . was common property. The principles guiding this book are not far from the spirit of Show-and-Tell. It is stuff from home—that place in my mind and heart where I most truly live. P.S. This volume picks up where I left off in All I Really Need to Know I Learned in Kindergarten, when I promised to tell about the time it was on fire when I lay down on it.

When the stock market crashes on the Thursday before Easter, you—an ambitious, although ineffectual, and not entirely ethical young broker—are convinced that you're facing the Weekend from Hell. Before the market reopens on Monday, you're going to have to scramble and scheme to cover your butt, but there's no way you can anticipate the baffling disappearance of a 300-pound psychic, the fall from grace of a born-again monkey, or the intrusion in your life of a tattooed stranger intent on blowing your mind and most of your fuses. Over these fateful three days, you will be forced to confront everything from mysterious African rituals to legendary amphibians, from tarot-card bombshells to street violence, from your own sexuality to outer space. This is, after all, a Tom Robbins novel—and the author has never been in finer form.

Take it before and after you read this book – you'll see the difference!

Robert Fulghum's new book begins with a question we've all asked ourselves: "What on Earth have I done?" As Fulghum finds out, the answer is never easy and, almost always, surprising. For the last couple of years, Fulghum has been traveling the world – from Seattle to the Moab Desert to Crete – looking for a few fellow travelers interested in thinking along with him as he delights in the unexpected: trick-or-treating with your grandchildren dressed like a large rabbit, pots of daffodils blooming in mid-November, a view of the earth from outer space, the mysterious night sounds of the desert, every man's trip to a department store to buy socks, the raucous all-night long feast that is Easter in Greece, the trials and tribulations of plumbing problems and the friendship one can strike up with someone who doesn't share the same language. What on Earth Have I Done? is an armchair tour of everyday life as seen by Robert Fulghum, one of America's great essayists, a man who has two feet planted firmly on the earth, one eye on the heavens and, at times, a tongue planted firmly in his cheek. Fulghum writes to his fellow travelers, with a sometimes light heart, about the deep and vexing mysteries of being alive and says, "This is my way of bringing the small boat of my life within speaking distance of yours. Hello..."
