The Book That Started the Fermentation Revolution Sandor Ellix Katz, winner of a James Beard Award and New York Times bestselling author, whom Michael Pollan calls the "Johnny Appleseed of Fermentation" returns to the iconic book that started it all, but with a fresh perspective, renewed enthusiasm, and expanded wisdom from his travels around the world. This self-described fermentation revivalist is perhaps best known simply as Sandorkraut, which describes his joyful and demystifying approach to making and eating fermented foods, the health benefits of which have helped launch a nutrition-based food revolution. Since its publication in 2003, and aided by Katz's engaging and fervent workshop presentations, Wild Fermentation has inspired people to turn their kitchens into food labs: fermenting vegetables into sauerkraut, milk into cheese or yogurt, grains into sourdough bread, and much more. In turn, they've traded batches, shared recipes, and joined thousands of others on a journey of creating healthy food for themselves, their families, and their communities. Katz's work earned him the Craig Clairborne lifetime achievement award from the Southern Foodways Alliance, and has been called "one of the unlikely rock stars of the American food scene" by The New York Times. This updated and revised edition, now with full color photos throughout, is sure to introduce a whole new generation to the flavors and health benefits of fermented foods. It features many brand-new recipes--including Strawberry Kvass, African Sorghum Beer, and Infinite Buckwheat Bread--and updates and refines original recipes reflecting the author's ever-deepening knowledge of global food traditions that has influenced four-star chefs and home cooks alike. For Katz, his gateway to fermentation was sauerkraut. So open this book to find yours, and start a little food revolution right in your own kitchen. Praise for Sandor Ellix Katz and his books: "The Art of Fermentation is an extraordinary book, and an impressive work of passion and scholarship."--Deborah Madison, author of Local Flavors "Sandor Katz has proven himself to be the king of fermentation."--Sally Fallon Morell, President, The Weston A. Price Foundation "Sandor Katz has already awakened more people to the diversity and deliciousness of fermented foods than any other single person has over the last century."--Gary Paul Nabhan, author of Growing Food in a Hotter, Drier Land "The fermenting bible." -- Newsweek "In a country almost clinically obsessed with sterilization Katz reminds us of the forgotten benefits of living in harmony with our microbial relatives." -- Grist

Lessons for leaders on resolving the ongoing struggle between instinct and the creative mind Kings, heads of government, and corporate executives lead thousands of people and manage endless resources, but may not have mastery over themselves. Often leaders know that right action is important, but have little (if any) understanding of what prevents them from acting in accordance with their intentions. In this important book, leadership expert Richard Daft portrays this dilemma as a struggle between instinct (elephant) and intention (the executive) using the most current research on the intentional vs. the habitual mind to explain how this phenomenon occurs. Based on current research and real-life examples Offers leaders a method for directing themselves more productively Written by an expert in leadership, organizational performance, and change management Through real-life examples and recent studies in psychology, management and Eastern spirituality Daft provides guidance to all of us who struggle finding our own balance and cultivating the behavior of others.

The most popular annual guide of its kind—fully revised and updated to reflect all new clinical developments in every field of medicine For 60+ years, CURRENT Medical Diagnosis and Treatment—the flagship volume of the renowned Lange medical series—has been delivering the

Popular Science

1967: January-June

This go-to manual--now revised and significantly expanded with more than 50% new material--has enabled thousands of clinicians to effectively treat clients with chronic pain. In the face of today's growing opioid crisis, pain self-management techniques are needed now more than ever. The volume shows how to implement 10 treatment modules that draw on proven cognitive-behavioral therapy (CBT) strategies. In a convenient large-size format, it includes 58 reproducible client handouts and assessment tools that purchasers can photocopy from the book or download and print from the companion website. The website also offers access to downloadable audio recordings of relaxation exercises narrated by the author, plus supplemental resources for treating clients with lower levels of literacy. New to This Edition *Incorporates over a decade of important advances in pain research and clinical practice. *Treatment modules that allow clients to enter a group at any point after an introductory session. *Expanded with motivational enhancement, relaxation, and mindfulness techniques. *Many new handouts, assessment tools, and therapist scripts, as well as audio downloads. *Orients and engages clients using state-of-the-art research on how the brain processes pain.

Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.

Aswath Damodaran, distinguished author, Professor of Finance, and David Margolis, Teaching Fellow at the NYU Stern School of Business, have delivered the newest edition of *Applied Corporate Finance*. This readable text provides the practical advice students and practitioners need rather than a sole concentration on debate theory, assumptions, or models. Like no other text of its kind, *Applied Corporate Finance, 4th Edition* applies corporate finance to real companies. It now contains six real-world core companies to study and follow. Business decisions are classified for students into three groups: investment, financing, and dividend decisions.
