The oeuvre of the Greek historian Xenophon, whose works stand with those of Plato as essential accounts of the teachings of Socrates, has seen a new surge of attention after decades in the shadows. And no

one has done more in recent years to spearhead the revival than Thomas L. Pangle. Here, Pangle provides a sequel to his study of Xenophon's longest account of Socrates, the Memorabilia, expanding the scope of inquiry

through an incisive treatment of Xenophon's shorter Socratic dialogues, the Economist, the Symposium, and the Apology of Socrates to the Jury. What Pangle reveals is that these three depictions of Socrates complement and, in
