Stories from Lake
Superior's North Shore

Over the past two decades, the question of who owns the land of Temagami and how the land should be used has caused a debate of unparalleled intensity. For the native

Download Free Temagami Canoe Routes

people, it is their lands under attack. For environmentalists from all parts of Ontario, it is a case of ecological preservation of a unique but fast-disappearing wilderness. For others, dependent upon the resource sector, it is a matter of economic survival, both individually and for their

communities. In an attempt to clarify the issues surrounding Temagami, Laurentian University's Institute of Northern Ontario Development and Research invited participants in the Temagami debate to a conference in October, 1989. What follows in this volume are eleven of the revised

papers originally presented there. A balanced perspective on the issues at hand is coupled with the views of the various interest groups. Topics covered include aboriginal rights in Temagami, the development of a wilderness park system in Ontario, the management of multiple

resources, the importance of tourism in Temagami and an environmentalist's perspective. Noted environmentalist Hap Wilson takes us along a wilderness trail replete with snags and pitfalls, through mishaps, tears, and laughter. Temagami, located in northern
