Nelson Spelling provides excellent and thorough coverage of the word level requirements of the Literacy Strategy for developing spelling, phonological awareness, word recognition and graphic knowledge. The books are sequenced for progression and contain three levels of differentiation designed for a wide range of abilities. The idea of "The Green Book" is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race.

A New York Times bestseller for millions of people, travel by air is a confounding, uncomfortable, and even fearful experience. Patrick Smith, airline pilot and author of the popular website www.askthepilot.com, separates fact from fallacy and tells you everything you need to know: • How planes fly, and a revealing look at the men and women who fly them • Straight talk on turbulence, pilot training, and safety. • The real story on delays, congestion, and the dysfunction of the modern airport • The myths and misconceptions of cabin air and cockpit automation • Terrorism in perspective, and a provocative look at security • Airfares, seating woes, and the pitfalls of airline customer service • The colors and cultures of the airlines we love to hate COCKPIT CONFIDENTIAL covers not only the nuts and bolts of flying, but the grand theater of air travel, from airport architecture to inflight service to the excitement of travel abroad. It's a thoughtful, funny, at times deeply personal look into the strange and misunderstood world of commercial flying. "Patrick Smith is extraordinarily knowledgeable about modern aviation...the ideal seatmate, a companion, writer and explorer." —Boston Globe "Anyone remotely afraid of flying should read this book, as should anyone who appreciates good writing and great information." —The New York Times, on ASK THE PILOT
