The coastal and archipelago areas in the Baltic Sea are popular destinations for a number of tourists. An important group of tourists is boaters, who visit the coastal areas during a short summer period. Boat owners are sometimes pictured as having a great interest for the nature and a willingness to do right. Pollution from pleasure boats such as discharges of oil and fuel, antifouling paints and cleaning agents have a negative impact on the coastal environment. Environmentally sound alternatives exist to some extent, but are not very common. Sustainable alternatives for boaters are lacking behind. One of the underlying purposes of this study was to understand how we can help boat owners change their behaviour and decrease the negative impact on the marine environment. The survey among boaters has been conducted in Finland, Sweden and Denmark with a web based

A monumental work of history that captures the last days of the Third Reich as never before. Swansong 1945 chronicles the end of Nazi Germany through more than 1,000 extracts from letters, diaries, and autobiographical accounts, written by civilians and soldiers alike. Together, they present a panoramic view of four tumultuous days that fateful spring: Hitler's birthday on April 20, American and Soviet troops meeting at the Elbe on April 25, Hitler's suicide on April 30, and the German surrender on May 8. An extraordinary account of suffering and survival, Swansong 1945 brings to vivid life the end of World War II in Europe.

A state-of-the-art resource on head, neck, and skull base surgical procedures in children Pediatric otolaryngology is a rapidly expanding field with remarkable technological advances that have improved the quality of life for young patients. Many highly complex pediatric head and neck procedures are not commonly performed, resulting in a paucity of resources. Atlas of Pediatric Head & Neck and Skull Base Surgery by renowned surgeons Dan M. Fliss, Ari DeRowe, and an impressive group of interdisciplinary innovators fills a gap in the literature. The richly illustrated atlas features a detailed discussion and guidance on groundbreaking surgeries developed and currently performed by top academic surgeons in the field, many of whom contributed to this book. The introductory section lays a solid foundation of knowledge, with discussion of pediatric anatomy, distinctive topography of the skull base, anesthesia and pain control considerations, and imaging modalities. Fifty-four subsequent chapters encompass a rich spectrum of approaches and pediatric pathologies, organized by head and neck; skull base and craniofacial; airway, voice, and swallowing; trauma; and reconstruction sections. Surgical chapters include an introduction;

evidence-based guidelines; preoperative, anesthetic, intraoperative and postoperative considerations; techniques and positioning; extensive references; and more. Key Features - Concise, targeted descriptions of preoperative, perioperative, and postoperative considerations enhance the ability to deliver high-quality surgical care and achieve optimal outcomes - Bulleted list of highlights at the end of each surgical chapter provide a quick reference - Detailed, high-quality color illustrations and surgical photographs enhance understanding of impacted anatomy and techniques This is an essential reference for otolaryngology, maxillofacial, plastic reconstructive, and neurosurgery residents, as well as for pediatric otolaryngology and head and neck fellows. Practicing head and neck surgeons and pediatric otolaryngologists will also find it beneficial. Dan M. Fliss, MD, is Professor and Chairman, Department of Otolaryngology Head & Neck Surgery and Maxillofacial Surgery; and Director, the Interdisciplinary Center for Head & Neck Surgical Oncology, Tel-Aviv Sourasky Medical Center, Tel Aviv, Israel. Ari DeRowe, MD, is Director, Pediatric Otolaryngology Unit, Dana-Dwek Children ' s Hospital, Tel-Aviv Sourasky Medical Center, Tel Aviv, Israel.
